¹ Prior to 1955 census data included copper rod. Subsequently rod was separately reported, but is excluded from this tabulation because predominantly used for electrical wire.² Foil not segregated prior to September 1963; 1963 includes four months only; alloy foil is included through December 1965, segregated beginning January 1966.³ Not segregated prior to 1954.
⁴ Not segregated prior to September 1963; 1963 covers four months only; includes copper Angles, Shapes and Sections which are infrequently reported in relatively small quantities.
