Manmade fiber ⁵	5,937	416	7,743	504	8,676	696	9,663	1,291	10,949	1,569	11,840	1,723	12,779	1,821	+115.2	+338.0

¹ As given in the source, import data are adjusted to reflect the net foreign trade balance in spun yarn. A minus sign indicates a net export surplus. See p. 96, Textile Organon, June 1967, notes a and b.

² Yugoslavia only; other Communist country imports not available.

³ Communist country imports are only those from the free world.

⁴ Pakistan production and import data not included.

⁵ Totals differ due to rounding and due to revisions of data for individual countries.

Note: Cotton data are for crop year commencing Aug. 1 of 1st year stated in each heading. Manmade fiber data are for calendar year 1st stated in each column heading.
