

TABLE 4.—HAWAII'S PER CAPITA CONSUMPTION OF RED MEATS AND POULTRY  
[In pounds per capita]<sup>1</sup>

| Year      | Pork | Beef and veal <sup>2</sup> | Lamb and mutton | Poultry meat <sup>3</sup> | Total red meats and poultry |
|-----------|------|----------------------------|-----------------|---------------------------|-----------------------------|
| 1957..... | 29.4 | 78.2                       | 2.2             | 21.5                      | 131.4                       |
| 1958..... | 28.0 | 75.2                       | 2.3             | 21.6                      | 127.1                       |
| 1959..... | 28.6 | 80.4                       | 2.4             | 22.0                      | 133.4                       |
| 1960..... | 28.1 | 81.9                       | 2.2             | 22.9                      | 135.1                       |
| 1961..... | 29.5 | 85.1                       | 2.1             | 24.7                      | 141.4                       |
| 1962..... | 29.1 | 77.1                       | 1.9             | 22.9                      | 131.0                       |
| 1963..... | 30.0 | 77.9                       | 1.5             | 25.0                      | 134.4                       |
| 1964..... | 32.4 | 85.4                       | 1.8             | 25.2                      | 144.8                       |
| 1965..... | 31.1 | 86.2                       | 1.4             | 26.1                      | 144.8                       |
| 1966..... | 28.3 | 84.9                       | 1.1             | 25.6                      | 139.9                       |

<sup>1</sup> All per capita estimates based on civilian population (de facto) as published by the department of health.

<sup>2</sup> From table 6, New Zealand-Australian boned beef and veal converted to carcass weight equivalent, at 1.45 times its weight.

<sup>3</sup> Includes turkey imported from U.S. mainland.
