| Product                                                                                                                                                                                                          | Type of Restriction | Estimate Impact on U. S. Trade                                                                                                                                                                                                                                                                                                                                                                                                        | Trade Agreement Status                            |
| <u>Non-Agricultural Quantitative Restrictions</u>                                                                                                                                                                |                     |                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                   |
| Certain gasolines; some chemicals; certain textile fabrics; some clothing, headgear and footwear; certain articles for household use; certain precious metals; and jewelry; passenger cars, trucks, toys, games; | Global quotas       | Significant for selected textiles, wearing apparel, and household articles.                                                                                                                                                                                                                                                                                                                                                           | Legal under GATT Article XII, affects bound items |
|                                                                                                                                                                                                                  |                     | <p>The vast majority of goods subject to controls fall under the Finnish global quota system, which governs imports from countries which are participants in a multilateral trade and payment agreement with Finland. U.S. is not a signatory, but is granted benefits. Most remaining global quotas are scheduled to be abolished January 1, 1968. Quotas significant to U. S. exports will probably be eliminated at that time.</p> |                                                   |
