

Product	Type of Restriction	Estimated Impact on U.S. Trade	Trade Agreement Status	Remarks
<u>Non-Agricultural Quantitative Restrictions</u>				
Citric Acid and crude calcium citrate	Import licensing	Significant, but estimate of increased imports not possible.	Inconsistent with GATT provisions. Items bound.	
Tetraethyl lead and anti-knock preparations	Quota - 240 metric tons (U.S.-U.K. only) import licensing	Significant, but estimate of increased imports not possible.	Inconsistent with GATT provisions. No binding.	Automatic licensing to EEC countries.
Essential oils of lemons	Import licensing	Significant, but estimate of increased imports not possible.	Inconsistent with GATT provisions. Item bound.	Not under license to former OEEC countries.
Elemental Sulphur	Quantitative import restrictions	Significant, estimated annual imports from U.S. if restriction removed - \$1.5 million.	Inconsistent with GATT provisions. Item bound.	Italy maintains complete embargo on imports of elemental sulphur in an attempt to shield an uneconomic domestic industry
<u>Valuation and Taxes</u>				
Practically all products	Turnover tax on import sale of 4%.	Significant, but estimate of increased imports not possible	Legal ^{1/} and negotiable, affects bound items	Tax is levied on duty-paid value of goods and thus discriminates against importer by amount of duty plus other customs fees.
^{1/} Some aspects of this tax may be inconsistent with GATT provisions
