

points higher on 13 products as they put it, their barrier is 5 to 19 percentage points higher than ours for 10 of the 13 products.

This is not just happening to the chemical industry, as many witnesses have pointed out before this committee, and we have prepared two charts showing the impact of the border tax on U.S. trade generally.

(Tables III and IV, in support of charts III and IV, appear in Mr. Barnard's prepared statement.)

Chart IV

U.S. Barriers to German Exports
