Mr. BROOKS. Could you tell us the total number of employees in your agency and the geographical extent of your operations, Mr. Chairman?

Mr. HYDE. Yes.

Mr. FLINT. The strength as of April 9 is 1,481.

Mr. HYDE. And Mr. Flint, what part of this is assigned to field?

Mr. FLINT. 422 employees are assigned to the various field organizations of the Commission. The bulk of these, 335, are assigned to the field offices and monitoring stations of the Field Engineering Bureau which are located throughout the country.

Mr. HYDE. Mr. Chairman, that is in general the total staff and its location. All those not classified as field would be here as the headquarters. We also have small field organizations of the Common Carrier Bureau, Safety and Special Radio Services Bureau, Chief Engineer and Executive Director. We will check those figures.

Mr. BROOKS. Very fine. That will provide an accurate figure for the record.

(The information to be supplied follows:)

Headquarters staff	-----	1,059
Field staff	-----	422
