

Mr. HYDE. We will welcome the opportunity.

(The information to be supplied is in app. C.)

Mr. BROOKS. Good. It is a small agency and you are trying to do everything possible for them. You are trying to make the 3's—upgrade them to the 4's, and the 15's want to be 17's. Incidentally, what is the average grade level in the—

Mr. PAGLIN. The average grade as of June 30, 1967, Mr. Chairman, the average grade for the 1,463 classification employees was 8.79. That was the average grade for our Classification Act employees.

Mr. BROOKS. That is pretty good, you just turned right to it.

H. GENERAL ACCOUNTING OFFICE REPORTS

Has the General Accounting Office issued any auditing reports of the overall operation of the FCC, not directed at the functional program but rather management and administration of the agency?

Mr. HYDE. No. There have been two preliminary reports but no report such as you inquired about.

PART 2—PROGRAM REVIEW

Mr. BROOKS. Turning now to your program breakdown, I would appreciate a brief explanation on what each of the programs is and how it is performed and I would like at this time without objection enter into the record exhibits E, F, G, H, I, J, and K, to be inserted before the discussion of each program. You may, sir, want to have the people that are directly concerned with these programs present them. If they could limit it to a—they can revise—I do not want it extended too long, but a short concise analysis of what they are doing would be helpful.

Mr. HYDE. Let me give you what appears to be or what are the major programs of the agency and as I come to them if it becomes necessary to obtain more detail we will call in the specialists.

A. PROGRAM II—RESEARCH AND PLANNING IN COMMUNICATIONS TECHNOLOGY

The Commission gets more notice for its broadcast function, I suppose, than for other matters. Equal time, section 315—off the record. (Discussion off the record.)
