

## REIMBURSABLE PROGRAMS

Program No. 2, Navy Department: Radio direction finding and intercepting telemetry transmissions on atomic-powered buoy in Gulf of Mexico for Navy, \$30,000.

Program No. 3, RTCM: Government and Industry Advisory Committee on Maritime Telecommunications—looking towards improving telecommunications and utilization of new scientific discoveries in the field, \$34,000.

Program No. 5, Office of Civil Defense: Emergency communications planning, \$320,000.

Program No. 6, Office of Civil Defense: Preparation and printing of "A Guide to Civil Defense Management in the Communications Industry" \$7,000.

Program No. 7, AID: Programing ITU fellowships and other foreign visitors in the United States for State Department, \$17,000.

Program No. 8, Air Force: Long range direction finding and intercepting telemetry transmissions on high-altitude scientific balloons for Air Force, \$50,000.

Program No. 10, Navy Department: Reimbursement for use of our computer, \$50,000.

Mr. HYDE. I believe the exhibit covers our activities there.

Mr. BROOKS. Is there anything you would want to add to that, Mr. Chairman, or possibly Mr. Paglin, let us know. I think this is probably adequate because it is a rather routine operation.

Mr. Chairman, we have no further questions. We want to thank you very much for your courtesy in coming down and wish that you would convey to your fellow Commissioners my best wishes.

Mr. HYDE. We welcome the opportunity to present information here regarding the FCC and we also appreciate the expertise of the questions that have been addressed to us. I hope we have been helpful to you.

Mr. BROOKS. I do hereby as chairman, adjourn the committee.  
(Whereupon at 12 p.m., the subcommittee was adjourned.)
