

FUNDING ARRANGEMENTS AND PROCEDURES

SEC. 8. (a) In order to provide for the more effective administration of funds drawn from more than one Federal program or appropriation in support of projects under this Act, there may be established joint management funds with respect to such projects. The total amount approved for such a project may be accounted for through a joint management fund as if the funds had been derived from a single Federal assistance program or appropriation. There will be advanced to the joint management fund from each affected appropriation, from time to time, its proportionate share of amounts needed for payment to the grantee. Any amounts remaining in the hands of the grantee at the completion of the project shall be returned to the joint management fund.

(b) Any account in a joint management fund shall be subject to such agreements, not inconsistent with this section and other applicable law, as may be entered into by the Federal agencies concerned with respect to the discharge of the responsibilities of those agencies and shall assure the availability of necessary information to those agencies and to the Congress. These agreements shall also provide that the agency administering a joint management fund shall be responsible and accountable for the total amount provided for the purposes of each account established in the fund; and may include procedures for determining, from time to time, whether amounts in the account are in excess of the amounts required, for returning that excess to the participating Federal agencies in accordance with a formula mutually acceptable as providing an equitable distribution, and for effecting returns accordingly to the applicable appropriations, subject to fiscal year limitations. Excess amounts applicable to expired appropriations will be lapsed from that fund.

(c) For each project financed through a joint management fund established pursuant to this section, the recipients of moneys drawn from the fund shall keep such records as the head of the Federal agency responsible for administering the fund will prescribe. Such records shall, as a minimum, fully disclose the amount and disposition by such recipient of Federal assistance received, the total cost of the project in connection with which such Federal assistance was given or used, the amount of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(d) The head of the Federal agency responsible for administering such joint management fund and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of such recipients that are pertinent to the moneys received from such fund.

(e) In the case of any project covered in a joint management fund, a single non-Federal share may be established according to the Federal share ratios applicable to the several Federal assistance programs involved and the proportion of funds transferred to the project account from each of those programs.

AUXILIARY PROVISIONS

SEC. 9. (a) Appropriations available to any Federal assistance program for technical assistance or the training of personnel may be made available for the provision of technical assistance and training in connection with projects proposed or approved for joint or common funding involving that program and any other Federal assistance program.

(b) Personnel of any Federal agency may be detailed from time to time to other agencies as necessary or appropriate to facilitate the processing of applications under this Act or the administration of approved projects.

FEDERAL-STATE ASSISTANCE AND AGREEMENTS

SEC. 10. Subject to such regulations as the President may prescribe, Federal agencies may enter into agreements with States or State agencies as appropriate to extend the benefits of this Act to projects involving assistance from one or more Federal agencies and one or more State agencies. These agreements may include arrangements for the processing of requests for, or the administration of, assistance to such projects on a joint basis. They may also include provisions covering the establishment of uniform technical or administrative requirements, as authorized by this Act.
