

HEALTH RESEARCH FACILITIES APPROVED APPLICATIONS—NOT FUNDED (AS OF JUNE 21, 1968)

Institution	Description	Council recommendation
Alabama: Southern Research Institute, Birmingham.	Construction of a building to house animals, chiefly dogs and primates for research laboratories for pharmacological research.	\$272,600
California:		
University of California, San Diego.	Research space in a new building for the department of biology.	1,292,000
University of California, Los Angeles.	Research space in a molecular biology institute for development of effective multidisciplinary approaches to molecular biology.	1,000,000
Colorado: Colorado State University, School of Veterinary Medicine, Fort Collins.	Construction of two separate buildings for the departments of anatomy and pathology.	1,002,000
Connecticut: Yale University School of Medicine, New Haven.	Construction of a research building to house the departments of surgery, obstetrics, and gynecology.	2,578,000
District of Columbia: George Washington University School of Medicine, Washington, D.C.	Research space in a new basic science building for the basic science departments.	2,578,000
Florida: University of Florida, Gainesville.	Construction of a new research building for the Department of Psychology.	541,000
Georgia: Medical College of Georgia, Augusta.	Research space in a new research and education building for basic medical sciences.	1,786,180
Illinois:		
Northwestern University, Evanston.	A new facility for research in communicative disorders.	1,828,000
Presbyterian-St. Luke's Hospital, Chicago.	Completion of space in the southcenter building for portions of the departments of biochemistry, pathology, and surgery.	601,000
University of Chicago, Chicago.	A new basic biological sciences research building for the departments of biochemistry, biophysics, and microbiology.	3,621,000
University of Chicago School of Medicine, Chicago.	Remodeling of the central animal quarters of Billings Hospital for the department of pathology's research programs.	146,000
University of Illinois College of Medicine.	Medical research laboratory addition to house animals and laboratory facilities.	1,566,000
Indiana: Indiana University School of Medicine, Indianapolis.	Space in a new addition to the Indiana University Hospital for OB-Gyn research laboratories and clinical research center.	539,000
Massachusetts:		
Boston University School of Dental Medicine, Boston.	Facilities for dental research.	325,000
Harvard Medical School, Boston.	Remodeling research facilities for the physiology department.	185,000
Do.	Remodeling research space for the laboratory of psychobiology.	130,000
Harvard University, Cambridge.	Research space in a new center for environmental and behavioral biology.	660,000
Massachusetts General Hospital, Boston.	Remodeling the hospital research building.	736,000
Massachusetts Institute of Technology, Cambridge.	A new electrical engineering and communications research facility for conducting health-related research.	1,593,000
Michigan:		
Michigan State University College of Medicine, East Lansing.	Research facilities in a new life sciences building of the new medical school.	1,931,006
University of Michigan, Ann Arbor.	Research facilities in the University of Michigan Center for Human Growth and Development.	1,811,000
Minnesota:		
Mayo Foundation-St. Mary's Hospital Rochester.	Space in the Alfred addition to St. Mary's Hospital for animal facilities and small areas for nutrition, gastroenterology, cardiovascular, and surgical research.	183,000
University of Minnesota, School of Medicine, St. Paul.	Construction of a laboratory in the veterinary school for research in leukemia, toxicology, and mycotoxin.	382,000
Missouri: Washington University, School of Medicine.	Addition of a floor to the west building for animal facilities for research use by the departments of pathology and preventive medicine.	442,500
New Hampshire: University of New Hampshire, Durham.	Research space in a new animal sciences building.	204,000
New York:		
Albany Medical College and Health Res. Inc., Albany (facility at Guilderland).	Research space in a new toxicology center.	726,000
Columbia University College of Physicians and Surgeons, New York.	Research space in a new facility for the study of human reproduction.	3,937,000
Cornell University, Ithaca.	Remodeling of research facilities for biological sciences.	66,400
Cornell University, Ithaca.	A new animal facility for research in nutrition.	321,000
Hillside Hospital, Glen Oaks.	Construction of a new facility for research in psychiatry.	158,000
Maimonides Hospital of Brooklyn and the City of New York, Department of Hospitals, Brooklyn.	A new medical research building on the grounds of Coney Island Hospital.	765,002
Yeshiva University, Albert Einstein College of Medicine, New York.	Participation in space to house the computer centers and the division of biomathematics, both of which support health-related research.	366,384
Duke University School of Medicine, Durham.	A new research building for the departments of anatomy, medicine, pediatrics, psychiatry, and surgery.	2,843,000
North Carolina:		
North Carolina Baptist Hospitals, Inc., Winston Salem.	Remodeling and new construction of research facilities for the departments of radiology and surgery.	88,000
North Carolina State University, Raleigh.	Animal facility and laboratories for biological research.	221,000
