

HEALTH RESEARCH FACILITIES APPROVED APPLICATIONS—NOT FUNDED (AS OF JUNE 21, 1968)

Institution	Description	Council recommendation
Ohio:		
Cleveland Metropolitan General Hospital, Cleveland.	Expansion of the hospital research areas for medicine, pediatrics, and surgery.	\$1,955,000
Mount Sinai Hospital of Cleveland, Cleveland.	A new addition and some remodeling of the hospital for medical research.	1,076,000
Ohio State University School of Medicine, Columbus.	A new research facility for comparative medical research.	554,000
Oregon: University of Oregon, Eugene.	A new science building for the department of biology.	1,369,000
Pennsylvania:		
Allegheny General Hospital, Pittsburgh.	A new structure for a clinical radiation therapy research center.	441,000
Children's Hospital of Philadelphia, Philadelphia.	A new research facility for the department of pediatrics.	2,387,000
Pennsylvania State University, University Park.	Construction of a central animal facility to serve the research needs of the University Park campus.	861,500
Philadelphia General Hospital, Philadelphia.	Remodeling and new construction for an animal research facility.	225,000
University of Pennsylvania School of Medicine, Philadelphia.	Remodeling of space for the department of anatomy and making provisions for animal quarters also.	892,000
Tennessee: Vanderbilt University School of Medicine, Nashville.	An addition to existing medical facilities to expand research in medicine, clinical Pharmacology, and psychiatry.	1,352,000
Texas:		
North Texas State University, Denton.	Remodeling first floor of masters hall for research in chemistry.	74,000
University of Texas Dental Branch, Houston.	Dental science institute.	2,150,000
Virginia:		
Medical College of Virginia, Richmond.	An animal research farm.	128,000
University of Virginia Medical School, Charlottesville.	Expansion and improvement of vivarium.	137,300
Washington:		
University of Washington, Seattle.	Zoology research building.	1,245,500
Washington State University, Pullman.	A new comparative behavior laboratory.	100,000
Wisconsin: University of Wisconsin Medical School.	A new research structure for the department of psychiatry.	1,028,000
Alabama: University of Alabama Medical School, Birmingham.	Expansion of the Lyons-Harrison Building for cardiovascular research.	917,000
California: California Institute of Technology, Pasadena.	A laboratory for research in behavioral biology.	1,800,000
Colorado: Colorado State University, School of Veterinary Medicine, Fort Collins.	An additional to the surgical wing for a surgical and metabolic research laboratory.	330,000
Indiana: Indiana University School of Medicine, Indianapolis.	Expansion of the medical science building for research in basic and clinical sciences.	3,400,000
Maryland: Good Samaritan Hospital and Johns Hopkins University, Baltimore.	Completion of shell space for medical research laboratories.	685,000
Massachusetts:		
Boston University, School of Medicine, Massachusetts.	Completion of shell space for ophthalmology, medicine, and surgery research laboratories.	259,000
University of Massachusetts, Worcester.	Research facilities in a new medical science building of the new medical school.	4,930,000
Michigan:		
University of Michigan, Medical School, Ann Arbor.	Completion of shell space for research in animal medicine and humane care of experimental animals.	120,000
Wayne State University, School of Medicine, Detroit, Mich.	A new addition and some remodeling to the Harper-Webber Hospital complex for medical research.	255,000
New York:		
New York University, New York.	Completion of shell space for psychology research laboratories.	287,000
Roosevelt Hospital, New York.	Research space in a new medical research building for the department of medicine.	1,430,000
Albany Medical College of Union University, Albany.	Research facilities in a new medical education building.	767,000
North Carolina:		
North Carolina State University, Raleigh.	Remodeling space in Polk Hall for biochemistry and animal science departments.	232,000
Duke University, School of Medicine, Durham.	Remodeling the 2d floor of the Bell Building for the departments of microbiology and medicine. Also, remodeling the 2d floor of the Davison Building for the department of pathology.	593,000
Oregon: Medical Research Foundation of Oregon, Beaverton.	A new animal facility and research laboratories for reproductive biology of subhuman primates.	1,115,000
Pennsylvania: Temple University School of Medicine, Philadelphia.	Remodel and renovate part of the existing medical school building for the departments of anatomy, microbiology, biochemistry, pharmacology, pathology and medicine.	833,000
Rhode Island: Miriam Hospital, Providence.	A new medical research wing.	363,000
