(5) Lastly, regardless of the specific features of either the treatment system evolved, or the agreed-on rate schedule and contract form, there must be proper protection for the interests of all parties in terms of financing, administration, overload protection and treatment process performance. This requires continuing management attention to all aspects of such arrangements, both during project study phases, and after these have been translated into the reality of operation.

MILLS NOW DISCHARGING TO PUBLIC FACILITIES

Number of mills, 123 of 753 or 16 percent. Capacity, 10 $^{\rm o}$ TPA, 5.5 of 50 or 11 percent.

Major locations: Los Angeles County Northern Metropolitan New Jersey Philadelphia Neenah, Menasha Kalamazoo Cincinnati Chicago	19 6 5 5 4
Total (47 percent of 123)	88
