

Acceptance Of Bureau Listings

The organization, purpose, and formal operating procedures of the Bureau have been so determined and defined as to warrant the greatest degree of acceptance of Bureau findings by all concerned, including governmental agencies, the boating industry, marine underwriters and the pleasure boating public. The Bureau, however, does not warrant or guarantee that its findings will be recognized or accepted in any individual case. Recognition or acceptance rests with the authority having jurisdiction.

Engine Fuel Pumps Being Set-Up for 500-Hour Operating Test in Heat Chamber
