

AMENDING SUBVERSIVE ACTIVITIES CONTROL ACT OF 1950 1721

(e) Photographs, Films and Recordings: Classified photographs, films and recordings, and their containers, shall be conspicuously and appropriately marked with the assigned defense classification.

(f) Products or Substances: The assigned defense classification shall be conspicuously marked on classified products or substances, if possible, and on their containers, if possible, or, if the article or container cannot be marked, written notification of such classification shall be furnished to recipients of such products or substances.

(g) Reproductions: All copies of reproductions of classified material shall be appropriately marked or stamped in the same manner as the original thereof.

(h) Unclassified Material: Normally, unclassified material shall not be marked or stamped Unclassified unless it is essential to convey to a recipient of such material that it has been examined specifically with a view to imposing a defense classification and has been determined not to require such classification.

(i) Change or Removal of Classification: Whenever classified material is declassified, downgraded, or upgraded, the material shall be marked or stamped in a prominent place to reflect the change in classification, the authority for the action, the date of action, and the identity of the person or unit taking the action. In addition, the old classification marking shall be cancelled and the new classification (if any) substituted therefor. Automatic change in classification shall be indicated by the appropriate classifying authority through marking or stamping in a prominent place to reflect information specified in subsection 4 (a) hereof.

(j) Material Furnished Persons not in the Executive Branch of the Government: When classified material affecting the national defense is furnished authorized persons, in or out of Federal service other than those in the executive branch, the following notation, in addition to the assigned classification marking, shall whenever practicable be placed on the material, on its container, or on the written notification of its assigned classification:

"This material contains information affecting the national defense of the United States within the meaning of the espionage laws, Title 18, U.S.C., Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law."

Use of alternative marking concerning "Restricted Data" as defined by the Atomic Energy Act is authorized when appropriate.
