

(b) RCAC is authorized to own 34 whole circuits and 22 half circuits in the TAT-5 cable, and to acquire by IRU 9 whole and 2 half circuits in the San Fernando-Sesimbra radio system, and 21 whole and 8 half circuits in the San Fernando-Estepona and Estepona-Rome systems; and to use such half circuits to provide those services it is now authorized to provide with Spain, Portugal, and Italy;

(c) ITTWC is authorized to own 28 whole circuits and 22 half circuits in the TAT-5 cable and to acquire by IRU 8 whole and 2 half circuits in the San Fernando-Sesimbra radio system and 17 whole and 8 half circuits in the San Fernando-Estepona and Estepona-Rome systems, and to use such half circuits to provide those services it is now authorized to provide with Spain, Portugal, and Italy;

(d) WUI is authorized to own 28 whole circuits and 21 half circuits in the TAT-5 cable and to acquire by IRU 8 whole and 1 half circuit in the San Fernando-Sesimbra radio system and 17 whole and 8 half circuits in the San Fernando-Estepona system and the Estepona-Rome system, and to use such half circuits to provide those services it is now authorized to provide with Spain, Portugal, and Italy, respectively;

(e) Each applicant is authorized to contribute one-fourth of the capital cost of the circuits to be held in reserve as indicated on the last line of appendix E, pages 1 through 3, viz: 42 circuits in the TAT-5 cable, 18 circuits in the Spain-Portugal microwave system and 21 circuits in the Spain-Italy microwave/cable systems, and each applicant may, no earlier than January 1, 1970, seek authority to acquire and operate one or more of these circuits, showing adequate justification to so acquire and operate such circuit or circuits, including the need for the circuits and services to be provided;

(f) When a given applicant acquires an ownership or IRU interest in any circuit initially allocated to another applicant or acquires one of the circuits in the reserved pools, the reimbursement to the other applicant(s) shall be on the basis of depreciated original cost (or the pro rata accumulated cost of such circuit if the system is not then operational); and

(g) The aforementioned carriers are authorized to make available to the following carriers on an IRU basis, to the extent required for circuits assigned to them, as indicated in the application herein, the following numbers of whole and half circuits in the TAT-5 cable:

CTNE, six whole and 91 half circuits.

ITALCABLE, six whole and 178 half circuits.

ENTEL, 15 half circuits.

CRPM, 21 half circuits.

It is further ordered, that the applicants shall take all steps necessary to construct and install the necessary components of the TAT-5 cable segment of the system to assure its being placed in service no later than March 31, 1970, and shall take all reasonable steps necessary to assure that the other segments of the system will be operational at the same time;

It is further ordered, that any agreement entered into by any applicant herein with respect to service over any whole circuit it is herein, or is in the future, authorized to acquire shall provide for implementation of the conditions specified in the immediately following two ordering clauses;

It is further ordered, that no later than 90 days prior to the date the cable and microwave facilities authorized herein are placed in service with Spain, Portugal, and Italy, and at least 30 days before such facilities are used for service with each other country (unless shorter notice is authorized) each applicant shall file rates with the Commission for such services as they are authorized to provide over the facilities herein authorized, which shall, with respect to rates in effect at the date of this order, provide for at least a 25-percent reduction for message telephone service; more than 25 percent for private line services, including voice grade, telegraph grade, and voice/record service; at least 15 percent for telex service; and for reductions in message telegraph service;

It is further ordered, that at least 30 days prior to the activation by A.T. & T., RCAC, ITTWC, and WUI of any circuit or circuits, any such applicant is authorized to own or acquire in the TAT-5/MAT-1 system, it shall notify the Commission in writing of such intent, together with a showing that the proposed activation of the circuit or circuits is in accord with the third condition of our letters to them of February 16, 1968, regarding the TAT-5/MAT-1 cable system (which requires that the entities owning the cable or having IRU's therein use satellite circuits for the handling of traffic in numbers sufficient to assure that the cable and any commercial satellite facilities provided to handle traffic between
