

DOCUMENTATION TO SUPPORT CHARGE OF DESECRATION OF CEMETERIES BY TVA
 CEMETERY MOVED DURING KENTUCKY DAM PROJECT

Wooden Stakes replace traditional Stone Markers in TVA Moved Cemetery. Some plots are as yet unmarked.

Some Markers lean against a tree, others are in a pile. TVA seems unable to match markers with proper grave. Bodies which were brought to original cemetery plot in a hearse were dug up and moved by pick-up truck to this final resting place.

This final look is indicative of TVA's treatment of the dead. Their treatment of the living is the subject of the instant report.
