

ACKNOWLEDGMENTS

The data used in this report were obtained during a regional study of western livestock ranching conducted by the Farm Production Economics Division, Economic Research Service, U. S. Department of Agriculture, and several State agricultural experiment stations in the West. Assistance in obtaining ranch records and grazing statistics was furnished by the Bureau of Land Management, Department of the Interior, and Forest Service in the Department of Agriculture.

Others who provided helpful suggestions as the work progressed:

U. S. Department of Agriculture
Economic Research Service

C. W. Crickman, Washington, D. C.
R. G. Welch, University Park, N. Mex.

Forest Service

Robert S. Rummell, Washington, D. C.

U. S. Department of the Interior
Bureau of Land Management

Myrvin E. Noble, Washington, D. C.
