

COUNTY OF LOUISA,
Louisa, Va., September 18, 1967.

HON. STEPHEN M. YOUNG,
Chairman, Subcommittee on Flood Control—Rivers and Harbors,
U.S. Senate,
Washington, D.C.

DEAR MR. CHAIRMAN: The Louisa County Board of Supervisors, at its regular monthly meeting on September 5, authorized me to write you a letter urging that your committee give favorable consideration to, and urge Congress to authorize construction of the Salem Church Reservoir, as recommended in Senate Document No. 37, 90th Congress, 1st Session.

It is the belief of our Board of Supervisors that this project would be of great benefit to the people of this area.

Sincerely,

JOE CARSON, JR.,
Coordinator.

TOWN OF ORANGE, VIRGINIA,
June 17, 1968.

Whereas the Town Council of Orange, Virginia has heretofore at various times expressed its approval of the Salem Church Reservoir Project, and

Whereas the said Council is still of the opinion that the completion of the project will be beneficial to the citizens of the Orange area, especially from the standpoint of water-leased recreation.

Be is resolved by the Council of the Town of Orange, that all Authorities and Agencies in interest be urged to consider the benefits which will accrue to upstream localities, and to visitors to the area; as well as the flood control, water supply and pollution control factors which apply downstream, and

Be is further resolved that A. P. Beirne be empowered to present this resolution on behalf of the Town Council and to further express to the Flood Control Sub-committee of the House Public Works Committee the desire of the Council to see the Salem Church Reservoir Project undertaken and completed.

Copy, Teste:

H. F. KNOELL,
Recorder, Town of Orange.

STAFFORD COUNTY BOARD OF SUPERVISORS,
Stafford, Va., June 18, 1968.

The following has been extracted from the minutes of the Stafford County Board of Supervisors meeting of June 12, 1968, and is certified a true copy:

"Whereas, it is becoming increasingly obvious that the urbanization and rapid population growth of the Rappahannock River Basin area demands that every effort be made at this time for the preservation of our water and other natural resources so that there will be adequate water supply, flood control and recreational areas for the orderly and economic development, and

"Whereas, the only way to obtain the full benefits which can be derived from the river is through the construction of the proposed multi-purpose reservoir at Salem Church, which will develop the full potential, and

"Whereas, it appears that the economics of land acquisition for the project are such that any delays in the normal steps leading to completion of the project will be detrimental, now therefore,

"Be it resolved that the Board of Supervisors of Stafford County, Virginia, again reaffirm our position and urge the Congress to authorize the construction of Salem Church Reservoir as recommended in Senate Document No. 37, 90th Congress, 1st Session."

Attest:

ELIZABETH R. WATSON,
Acting Executive Secretary.

COUNTY OF SPOTSYLVANIA

SPOTSYLVANIA COURT HOUSE, VA.

RESOLUTION

Whereas, the Review Report on Salem Church Reservoir, dated May 2, 1966, has been examined by the Governor of Virginia and interested Federal agencies as required by established Federal procedures, and
