GENERAL SERVICES ADMINISTRATION

GSA provides, on a centralized basis where it is efficient to do so, a variety of goods and services for the agencies of Government. Among the things provided are: office and other building space, supplies, automatic data processing equipment, property and stockpile management, communications, motor transport, records management services, and other common services. It also operates the National Archives and presidential libraries.

GSA's PPB system groups these diversified activities into five basic program categories to facilitate analyses of costs and effectiveness. A sixth program category covers agency direction and a variety of support services.
