FROM: Eric *Guio*

RE: Monroe appeal

In connection with the Monroe appeal, I want to ask for attorneys' fees under Rule 2:11-4(f) "as a sanction for violation by the opposing party of the rules for prosecution of appeals". I would therefore like to have available an affidavit from each of you as to your hours of work on this matter.

Fran will draft a form affidavit that states;

you are a law student enrolled in the COm Lit Clinic and working with Eric Neisser, Esq. and John Payne, Esq. on the Urban League case. That you were assigned to do various research and drafting in connection with this appeal. That you spent a total of \_\_ hours on this matter and that your work was divided as follows:

date	work performed	time
------	----------------	------

Fran -- use separate paragraphs for each statement of the affidavit except the breakdown at the end. Please put a copy of your draft in the other three students' boxes and mine as soon as possible. Then I would ask the other students to fill in their form with the details on hours and return it to me.

Eileen - Please look up any annotations or commentaris to Rule 2:11-4(f) so I can have at least one paragraph of law and one citation of a case to include in my memo.

I would like everything done on this matter by Tuesday, October 15, so that I can edit and complete the motions and brief and file them by the following week.

THANKS.
