Gentlemen:

In reply to your letter of November 5, 1975, requesting stipulations to census information, I cannot give my consent.

The items contained in the documentation which you have attached, all pertain to a breakdown based upon race. None of the allegations contained in the complaint indicate a discrimination based upon race, and this information would have no relevance or pertinence to the pending litigation. Also, as to a number of the statistics I seriously question their accuracy as they relate to the Borough of Middlesex.

Very truly yours,

Edward J. Johnson, Jr.
