The Honorable Eugene D. Serpentelli
Judge, Superior Court of New Jersey

RE: The Hills Development Company low and moderate income housing

Dear Judge Serpentelli:

This office has been receiving inquiries recently with respect to the demographic make-up of the low and moderate income population purchasing housing units at "The Hills" which is reported by the media to be the first Mount Laurel II development to be occupied in New Jersey. The purpose of this letter is to advise the court of the information currently available from that development with respect to the low and moderate income population currently moving into The Hills. Some of this information has been made available by "The Hills" on a bootleg basis to certain planners and people who have asked for it, including members of the media. I hope that you will find it useful.

HISTORY OF HILLS MARKETING OF LOW AND MODERATE INCOME UNITS

The Hills initially advertised the availability of 260 low and moderate units in September of 1984 when it received approximately 600 applicants. That advertising resulted in the qualification of some 537 applicants who appeared, according to the verification procedures, both eligible for low and moderate income units by reason of income and potentially eligible for mortgages from The Housing Finance Agency. Attached hereto is a buyer profile of relevant information regarding that first pool of applicants for the "Village Green Neighborhood" (the low and moderate neighborhood) comparing them with the buyer profile for the market neighborhoods known as Mayfield (priced at \$66,000 - \$89,000), Fieldstone (priced at \$95,000 - \$132,000), Stone-Run (priced at \$138,000 - \$167,000) and Knollcrest (priced at \$190,000 - \$225,000). The buyer profile also shows rough statistics for the education level and age of those initial applicants. The Bedminster Hills Housing Corporation became concerned in late December that they were receiving too few family applicants and too many single applicants; that too many units designed and priced for smaller families

would be assigned to single persons; and, as a result of a request by the Public Advocate members of the housing corporation, readvertised between January 12 and February 15 for more family applicants. A copy of the Village Green advertising schedule and the actual ad is attached to this letter. I understand that this advertisement has resulted in an additional pool of over 431 applicants, of which 300 appear eligible. I do not currently have statistics on this new pool.

The Hills Development Company is in the process of putting all application information on computer and in the future will be in a position to sort through the entire pool to ascertain relevant buyer and applicant information. This information does not include racial information which is not maintained and will not be available.

PUBLIC REACTION TO SELECTION PROCESS

The Hills Development Company has been concerned about the fact that the process of selecting 260 low and moderate home owners from a total qualified applicant pool of about 1,100 applicants has resulted in some disappointments and bad feelings from applicants who were eliminated either because, upon verification, their incomes brought them above the permitted income range; or applicants who were qualified by income but failed to receive mortgages either because of their debt to income ratio, their credit ratings, or because their income was insufficient to carry the mortgage debt. There have been various articles in local newspapers in which such applicants have voiced their frustration. Finally, there was a major article on the front page of the Philadelphia Inquirer alleging that the first Mount Laurel II home buyers were mostly white, middle classed persons, and that the hard-core poor do not appear to be benefiting from Mount Laurel.

Very truly yours,

BRENER, WALLACK & HILL

Henry A. Hill
