

## CHAPTER 154

AN ACT concerning the cleanup of contaminated property, amending and supplementing Title 58 of the Revised Statutes, and amending P.L.1991, c.387.

**BE IT ENACTED** by the Senate and General Assembly of the State of New Jersey:

1. Section 3 of P.L.1976, c.141 (C.58:10-23.11b) is amended to read as follows:

C.58:10-23.11b Definitions.

3. Unless the context clearly indicates otherwise, the following terms shall have the following meanings:

"Act of God" means an act exclusively occasioned by an unanticipated, grave natural disaster without the interference of any human agency;

"Administrator" means the chief executive of the New Jersey Spill Compensation Fund;

"Barrel" means 42 United States gallons or 159.09 liters or an appropriate equivalent measure set by the director for hazardous substances which are other than fluid or which are not commonly measured by the barrel;

"Board" means a board of arbitration convened by the administrator to settle disputed disbursements from the fund;

"Cleanup and removal costs" means all costs associated with a discharge, incurred by the State or its political subdivisions or their agents or any person with written approval from the department in the: (1) removal or attempted removal of hazardous substances, or (2) taking of reasonable measures to prevent or mitigate damage to the public health, safety, or welfare, including, but not limited to, public and private property, shorelines, beaches, surface waters, water columns and bottom sediments, soils and other affected property, including wildlife and other natural resources, and shall include costs incurred by the State for the indemnification and legal defense of contractors pursuant to sections 1 through 11 of P.L.1991, c.373 (C.58:10-23.11f8 et seq.). For the purposes of this definition, costs incurred by the State shall not include any indirect costs for department oversight performed after the effective date of P.L.1997, c.278 (C.58:10B-1.1 et al.), but may include only those program costs directly related to the cleanup and removal of the discharge; however, where the State or the fund have expended money for the cleanup and removal of a discharge and are seeking to recover the costs incurred in that cleanup and removal action from a responsible party, costs incurred by the State shall include any indirect costs;

"Commissioner" means the Commissioner of Environmental Protection;

"Contamination" or "contaminant" means any discharged hazardous substance, hazardous waste as defined pursuant to section 1 of P.L.1976, c.99 (C.13:1E-38), or pollutant as defined pursuant to section 3 of P.L.1977, c.74 (C.58:10A-3);

"Department" means the Department of Environmental Protection;

"Director" means the Director of the Division of Taxation in the Department of the Treasury;

"Discharge" means any intentional or unintentional action or omission resulting in the releasing, spilling, leaking, pumping, pouring, emitting, emptying or dumping of hazardous substances into the waters or onto the lands of the State, or into waters outside the jurisdiction of the State when damage may result to the lands, waters or natural resources within the jurisdiction of the State;

"Emergency response action" means those activities conducted by a local unit to clean up, remove, prevent, contain, or mitigate a discharge that poses an immediate threat to the environment or to the public health, safety, or welfare;

"Fair market value" means the invoice price of the hazardous substances transferred, including transportation charges; but where no price is so fixed, "fair market value" shall mean the market price as of the close of the nearest day to the transfer, paid for similar hazardous substances, as shall be determined by the taxpayer pursuant to rules of the director;

"Fund" means the New Jersey Spill Compensation Fund;

"Hazardous substances" means the "environmental hazardous substances" on the environmental hazardous substance list adopted by the department pursuant to section 4 of P.L.1983, c.315 (C.34:5A-4); such elements and compounds, including petroleum products, which are defined as such by the department, after public hearing, and which shall be consistent to the maximum extent possible with, and which shall include, the list of hazardous substances

adopted by the federal Environmental Protection Agency pursuant to section 311 of the federal Water Pollution Control Act Amendments of 1972, Pub.L.92-500, as amended by the Clean Water Act of 1977, Pub.L.95-217 (33 U.S.C. s.1251 et seq.); the list of toxic pollutants designated by Congress or the EPA pursuant to section 307 of that act; and the list of hazardous substances adopted by the federal Environmental Protection Agency pursuant to section 101 of the "Comprehensive Environmental Response, Compensation and Liability Act of 1980," Pub.L.96-510 (42 U.S.C. s.9601 et seq.); provided, however, that sewage and sewage sludge shall not be considered as hazardous substances for the purposes of P.L.1976, c.141 (C.58:10-23.11 et seq.);

"Local unit" means any county or municipality, or any agency or other instrumentality thereof, or a duly incorporated volunteer fire, ambulance, first aid, emergency, or rescue company or squad;

"Major facility" includes, but is not limited to, any refinery, storage or transfer terminal, pipeline, deep-water port, drilling platform or any appurtenance related to any of the preceding that is used or is capable of being used to refine, produce, store, handle, transfer, process or transport hazardous substances. "Major facility" shall include a vessel only when that vessel is engaged in a transfer of hazardous substances between it and another vessel, and in any event shall not include a vessel used solely for activities directly related to recovering, containing, cleaning up or removing discharges of petroleum in the surface waters of the State, including training, research, and other activities directly related to spill response.

A facility shall not be considered a major facility for the purpose of P.L.1976, c.141 unless it has total combined aboveground or buried storage capacity of:

- (1) 20,000 gallons or more for hazardous substances which are other than petroleum or petroleum products, or
- (2) 200,000 gallons or more for hazardous substances of all kinds.

In determining whether a facility is a major facility for the purposes of P.L.1976, c.141 (C.58:10-23.11 et seq.), any underground storage tank at the facility used solely to store heating oil for on-site consumption shall not be considered when determining the combined storage capacity of the facility.

For the purposes of this definition, "storage capacity" shall mean only that total combined capacity which is dedicated to, used for or intended to be used for storage of hazardous substances of all kinds. Where appropriate to the nature of the facility, storage capacity may be determined by the intended or actual use of open land or unenclosed space as well as by the capacities of tanks or other enclosed storage spaces;

"Natural resources" means all land, fish, shellfish, wildlife, biota, air, waters and other such resources owned, managed, held in trust or otherwise controlled by the State;

"Owner" or "operator" means, with respect to a vessel, any person owning, operating or chartering by demise such vessel; with respect to any major facility, any person owning such facility, or operating it by lease, contract or other form of agreement; with respect to abandoned or derelict major facilities, the person who owned or operated such facility immediately prior to such abandonment, or the owner at the time of discharge;

"Person" means public or private corporations, companies, associations, societies, firms, partnerships, joint stock companies, individuals, the United States, the State of New Jersey and any of its political subdivisions or agents;

"Petroleum" or "petroleum products" means oil or petroleum of any kind and in any form, including, but not limited to, oil, petroleum, gasoline, kerosene, fuel oil, oil sludge, oil refuse, oil mixed with other wastes, crude oils, and substances or additives to be utilized in the refining or blending of crude petroleum or petroleum stock in this State; however, any compound designated by specific chemical name on the list of hazardous substances adopted by the department pursuant to this section shall not be considered petroleum or a petroleum product for the purposes of P.L.1976, c.141, unless such compound is to be utilized in the refining or blending of crude petroleum or petroleum stock in this State;

"Preliminary assessment" means the first phase in the process of identifying areas of concern and determining whether contaminants are or were present at a site or have migrated or are migrating from a site, and shall include the initial search for and evaluation of, existing site

specific operational and environmental information, both current and historic, to determine if further investigation concerning the documented, alleged, suspected or latent discharge of any contaminant is required. The evaluation of historic information shall be conducted from 1932 to the present, except that the department may require the search for and evaluation of additional information relating to ownership and use of the site prior to 1932 if such information is available through diligent inquiry of the public records;

"Remedial action" means those actions taken at a site or offsite if a contaminant has migrated or is migrating therefrom, as may be required by the department, including the removal, treatment, containment, transportation, securing, or other engineering or treatment measures, whether to an unrestricted use or otherwise, designed to ensure that any discharged contaminant at the site or that has migrated or is migrating from the site, is remediated in compliance with the applicable health risk or environmental standards;

"Remedial investigation" means a process to determine the nature and extent of a discharge of a contaminant at a site or a discharge of a contaminant that has migrated or is migrating from the site and the problems presented by a discharge, and may include data collected, site characterization, sampling, monitoring, and the gathering of any other sufficient and relevant information necessary to determine the necessity for remedial action and to support the evaluation of remedial actions if necessary;

"Remediation" or "remediate" means all necessary actions to investigate and clean up or respond to any known, suspected, or threatened discharge, including, as necessary, the preliminary assessment, site investigation, remedial investigation, and remedial action, provided, however, that "remediation" or "remediate" shall not include the payment of compensation for damage to, or loss of, natural resources;

"Site investigation" means the collection and evaluation of data adequate to determine whether or not discharged contaminants exist at a site or have migrated or are migrating from the site at levels in excess of the applicable remediation standards. A site investigation shall be developed based upon the information collected pursuant to the preliminary assessment;

"Taxpayer" means the owner or operator of a major facility subject to the tax provisions of P.L.1976, c.141;

"Tax period" means every calendar month on the basis of which the taxpayer is required to report under P.L.1976, c.141;

"Transfer" means unloading or offloading between major facilities and vessels, or vessels and major facilities, and from vessel to vessel or major facility to major facility, except for fueling or refueling operations and except that with regard to the movement of hazardous substances other than petroleum, it shall also include any unloading of or offloading from a major facility;

"Vessel" means every description of watercraft or other contrivance that is practically capable of being used as a means of commercial transportation of hazardous substances upon the water, whether or not self-propelled;

"Waters" means the ocean and its estuaries to the seaward limit of the State's jurisdiction, all springs, streams and bodies of surface or groundwater, whether natural or artificial, within the boundaries of this State.

2. Section 8 of P.L.1976, c.141 (C.58:10-23.11g) is amended to read as follows:

C.58:10-23.11g Liability for cleanup and removal costs.

8. a. The fund shall be strictly liable, without regard to fault, for all cleanup and removal costs and for all direct and indirect damages no matter by whom sustained, including but not limited to:

(1) The cost of restoring, repairing, or replacing any real or personal property damaged or destroyed by a discharge, any income lost from the time such property is damaged to the time such property is restored, repaired or replaced, and any reduction in value of such property caused by such discharge by comparison with its value prior thereto;

(2) The cost of restoration and replacement, where possible, of any natural resource damaged or destroyed by a discharge;

(3) Loss of income or impairment of earning capacity due to damage to real or

personal property, including natural resources destroyed or damaged by a discharge; provided that such loss or impairment exceeds 10% of the amount which claimant derives, based upon income or business records, exclusive of other sources of income, from activities related to the particular real or personal property or natural resources damaged or destroyed by such discharge during the week, month or year for which the claim is filed;

(4) Loss of tax revenue by the State or local governments for a period of one year due to damage to real or personal property proximately resulting from a discharge;

(5) Interest on loans obtained or other obligations incurred by a claimant for the purpose of ameliorating the adverse effects of a discharge pending the payment of a claim in full as provided by this act.

b. The damages which may be recovered by the fund, without regard to fault, subject to the defenses enumerated in subsection d. of this section against the owner or operator of a major facility or vessel, shall not exceed \$50,000,000.00 for each major facility or \$150.00 per gross ton for each vessel, except that such maximum limitation shall not apply and the owner or operator shall be liable, jointly and severally, for the full amount of such damages if it can be shown that such discharge was the result of (1) gross negligence or willful misconduct, within the knowledge and privity of the owner, operator or person in charge, or (2) a gross or willful violation of applicable safety, construction or operating standards or regulations. Damages which may be recovered from, or by, any other person shall be limited to those authorized by common or statutory law.

c. (1) Any person who has discharged a hazardous substance, or is in any way responsible for any hazardous substance, shall be strictly liable, jointly and severally, without regard to fault, for all cleanup and removal costs no matter by whom incurred. Such person shall also be strictly liable, jointly and severally, without regard to fault, for all cleanup and removal costs incurred by the department or a local unit pursuant to subsection b. of section 7 of P.L.1976, c.141 (C.58:10-23.11f).

(2) In addition to the persons liable pursuant to this subsection, in the case of a discharge of a hazardous substance from a vessel into the waters of the State, the owner or operator of a refinery, storage, transfer, or pipeline facility to which the vessel was en route to deliver the hazardous substance who, by contract, agreement, or otherwise, was scheduled to assume ownership of the discharged hazardous substance, and any other person who was so scheduled to assume ownership of the discharged hazardous substance, shall be strictly liable, jointly and severally, without regard to fault, for all cleanup and removal costs if the owner or operator of the vessel did not have the evidence of financial responsibility required pursuant to section 2 of P.L.1991, c.58 (C.58:10-23.11g2).

Where a person is liable for cleanup and removal costs as provided in this paragraph, any expenditures made by the administrator for that cleanup and removal shall constitute a debt of that person to the fund. The debt shall constitute a lien on all property owned by that person when a notice of lien identifying the nature of the discharge and the amount of the cleanup, removal and related costs expended from the fund is duly filed with the clerk of the Superior Court. The clerk shall promptly enter upon the civil judgment or order docket the name and address of the liable person and the amount of the lien as set forth in the notice of lien. Upon entry by the clerk, the lien, to the amount committed by the administrator for cleanup and removal, shall attach to the revenues and all real and personal property of the liable person, whether or not that person is insolvent.

For the purpose of determining priority of this lien over all other claims or liens which are or have been filed against the property of an owner or operator of a refinery, storage, transfer, or pipeline facility, the lien on the facility to which the discharged hazardous substance was en route shall have priority over all other claims or liens which are or have been filed against the property. The notice of lien filed pursuant to this paragraph which affects any property of a person liable pursuant to this paragraph other than the property of an owner or operator of a refinery, storage, transfer, or pipeline facility to which the discharged hazardous substance was en route, shall have priority from the day of the filing of the notice of the lien over all claims and liens filed against the property, but shall not affect any valid lien, right, or interest in the property filed in accordance with established procedure prior to the filing of a notice of lien pursuant to

this paragraph.

To the extent that a person liable pursuant to this paragraph is not otherwise liable pursuant to paragraph (1) of this subsection, or under any other provision of law or under common law, that person may bring an action for indemnification for costs paid pursuant to this paragraph against any other person who is strictly liable pursuant to paragraph (1) of this subsection.

Nothing in this paragraph shall be construed to extend or negate the right of any person to bring an action for contribution that may exist under P.L.1976, c.141, or any other act or under common law.

(3) In addition to the persons liable pursuant to this subsection, any person who owns real property acquired on or after September 14, 1993 on which there has been a discharge prior to the person's acquisition of that property and who knew or should have known that a hazardous substance had been discharged at the real property, shall be strictly liable, jointly and severally, without regard to fault, for all cleanup and removal costs no matter by whom incurred. Such person shall also be strictly liable, jointly and severally, without regard to fault, for all cleanup and removal costs incurred by the department or a local unit pursuant to subsection b. of section 7 of P.L.1976, c.141 (C.58:10-23.11f). Nothing in this paragraph shall be construed to alter liability of any person who acquired real property prior to September 14, 1993.

d. (1) In addition to those defenses provided in this subsection, an act or omission caused solely by war, sabotage, or God, or a combination thereof, shall be the only defenses which may be raised by any owner or operator of a major facility or vessel responsible for a discharge in any action arising under the provisions of this act.

(2) A person, including an owner or operator of a major facility, who owns real property acquired on or after September 14, 1993 on which there has been a discharge, shall not be liable for cleanup and removal costs or for any other damages to the State or to any other person for the discharged hazardous substance pursuant to subsection c. of this section or pursuant to civil common law, if that person can establish by a preponderance of the evidence that subparagraphs (a) through (d) apply, or if applicable, subparagraphs (a) through (e) apply:

(a) the person acquired the real property after the discharge of that hazardous substance at the real property;

(b) (i) at the time the person acquired the real property, the person did not know and had no reason to know that any hazardous substance had been discharged at the real property, or (ii) the person acquired the real property by devise or succession, except that any other funds or property received by that person from the deceased real property owner who discharged a hazardous substance or was in any way responsible for a hazardous substance, shall be made available to satisfy the requirements of P.L.1976, c.141, or (iii) the person complies with the provisions of subparagraph (e) of paragraph (2) of this subsection;

(c) the person did not discharge the hazardous substance, is not in any way responsible for the hazardous substance, and is not a corporate successor to the discharger or to any person in any way responsible for the hazardous substance or to anyone liable for cleanup and removal costs pursuant to this section;

(d) the person gave notice of the discharge to the department upon actual discovery of that discharge.

To establish that a person had no reason to know that any hazardous substance had been discharged for the purposes of this paragraph (2), the person must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property. For the purposes of this paragraph (2), all appropriate inquiry shall mean the performance of a preliminary assessment, and site investigation, if the preliminary assessment indicates that a site investigation is necessary, as defined in section 23 of P.L.1993, c.139 (C.58:10B-1), and performed in accordance with rules and regulations promulgated by the department defining these terms.

Nothing in this paragraph (2) shall be construed to alter liability of any person who acquired real property prior to September 14, 1993; and

(e) For the purposes of this subparagraph the person must have (i) acquired the property subsequent to a hazardous substance being discharged on the site and which discharge was discovered at the time of acquisition as a result of the appropriate inquiry, as defined in this

paragraph (2), (ii) performed, following the effective date of P.L.1997, c.278, a remediation of the site or discharge consistent with the provisions of section 35 of P.L.1993, c.139 (C.58:10B-12), or, relied upon a valid no further action letter from the department for a remediation performed prior to acquisition, or obtained approval of a remedial action workplan by the department after the effective date of P.L.1997, c.278 and continued to comply with the conditions of that workplan, and (iii) established and maintained all engineering and institutional controls as may be required pursuant to sections 35 and 36 of P.L.1993, c.139. A person who complies with the provisions of this subparagraph by actually performing a remediation of the site or discharge as set forth in (ii) above shall be issued, upon application, a no further action letter by the department. A person who complies with the provisions of this subparagraph either by receipt of a no further action letter from the department following the effective date of P.L.1997, c.278, or by relying on a previously issued no further action letter shall not be liable for any further remediation including any changes in a remediation standard or for the subsequent discovery of a hazardous substance, at the site, if the remediation was for the entire site, and the hazardous substance was discharged prior to the person acquiring the property. Notwithstanding any other provisions of this subparagraph, a person who complies with the provisions of this subparagraph only by virtue of the existence of a previously issued no further action letter shall receive no liability protections for any discharge which occurred during the time period between the issuance of the no further action letter and the property acquisition. Compliance with the provisions of this subparagraph (e) shall not relieve any person of any liability for a discharge that is off the site of the property covered by the no further action letter, for a discharge that occurs at that property after the person acquires the property, for any actions that person negligently takes that aggravates or contributes to a discharge of a hazardous substance, for failure to comply in the future with laws and regulations, or if that person fails to maintain the institutional or engineering controls on the property or to otherwise comply with the provisions of the no further action letter.

(3) Notwithstanding the provisions of paragraph (2) of this subsection to the contrary, if a person who owns real property obtains actual knowledge of a discharge of a hazardous substance at the real property during the period of that person's ownership and subsequently transfers ownership of the property to another person without disclosing that knowledge, the transferor shall be strictly liable for the cleanup and removal costs of the discharge and no defense under this subsection shall be available to that person.

(4) Any federal, State, or local governmental entity which acquires ownership of real property through bankruptcy, tax delinquency, abandonment, escheat, eminent domain, condemnation or any circumstance in which the governmental entity involuntarily acquires title by virtue of its function as sovereign, or where the governmental entity acquires the property by any means for the purpose of promoting the redevelopment of that property, shall not be liable, pursuant to subsection c. of this section or pursuant to common law, to the State or to any other person for any discharge which occurred or began prior to that ownership. This paragraph shall not provide any liability protection to any federal, State or local governmental entity which has caused or contributed to the discharge of a hazardous substance. This paragraph shall not provide any liability protection to any federal, State, or local government entity that acquires ownership of real property by condemnation or eminent domain where the real property is being remediated in a timely manner at the time of the condemnation or eminent domain action.

(5) A person, including an owner or operator of a major facility, who owns real property acquired prior to September 14, 1993 on which there has been a discharge, shall not be liable for cleanup and removal costs or for any other damages to the State or to any other person for the discharged hazardous substance pursuant to subsection c. of this section or pursuant to civil common law, if that person can establish by a preponderance of the evidence that subparagraphs (a) through (d) apply:

(a) the person acquired the real property after the discharge of that hazardous substance at the real property;

(b) (i) at the time the person acquired the real property, the person did not know and had no reason to know that any hazardous substance had been discharged at the real property, or (ii) the person acquired the real property by devise or succession, except that any other funds or

property received by that person from the deceased real property owner who discharged a hazardous substance or was in any way responsible for a hazardous substance, shall be made available to satisfy the requirements of P.L.1976, c.141;

(c) the person did not discharge the hazardous substance, is not in any way responsible for the hazardous substance, and is not a corporate successor to the discharger or to any person in any way responsible for the hazardous substance or to anyone liable for cleanup and removal costs pursuant to this section;

(d) the person gave notice of the discharge to the department upon actual discovery of that discharge.

To establish that a person had no reason to know that any hazardous substance had been discharged for the purposes of this paragraph (5), the person must have undertaken, at the time of acquisition, all appropriate inquiry on the previous ownership and uses of the property based upon generally accepted good and customary standards.

Nothing in this paragraph (5) shall be construed to alter liability of any person who acquired real property on or after September 14, 1993.

e. Neither the fund nor the Sanitary Landfill Contingency Fund established pursuant to P.L.1981, c.306 (C.13:1E-100 et seq.) shall be liable for any damages incurred by any person who is relieved from liability pursuant to subsection d. or f. of this section for a remediation that involves the use of engineering controls but the fund and the Sanitary Landfill Contingency Fund shall be liable for any remediation that involves only the use of institutional controls if after a valid no further action letter has been issued the department orders additional remediation except that the fund and the Sanitary Landfill Contingency Fund shall not be liable for any additional remediation that is required to remove an institutional control.

f. Notwithstanding any other provision of this section, a person, who owns real property acquired on or after the effective date of P.L.1997, c.278 (C.58:10B-1.1 et al.), shall not be liable for any cleanup and removal costs or damages, under this section or pursuant to any other statutory or civil common law, to any person, other than the State and the federal government, harmed by any hazardous substance discharged on that property prior to acquisition, and any migration off that property related to that discharge, provided all the conditions of this subsection are met:

(1) the person acquired the real property after the discharge of that hazardous substance at the real property;

(2) the person did not discharge the hazardous substance, is not in any way responsible for the hazardous substance, and is not a corporate successor to the discharger or to any person in any way responsible for the hazardous substance or to anyone liable for a discharge pursuant to this section;

(3) the person gave notice of the discharge to the department upon actual discovery of that discharge;

(4) within 30 days after acquisition of the property, the person commenced a remediation of the discharge, including any migration, pursuant to a department oversight document executed prior to acquisition, and the department is satisfied that remediation was completed in a timely and appropriate fashion; and

(5) Within ten days after acquisition of the property, the person agrees in writing to provide access to the State for remediation and related activities, as determined by the State.

The provisions of this subsection shall not relieve any person of any liability:

(1) for a discharge that occurs at that property after the person acquired the property;

(2) for any actions that person negligently takes that aggravates or contributes to the harm inflicted upon any person;

(3) if that person fails to maintain the institutional or engineering controls on the property or to otherwise comply with the provisions of a no further action letter or a remedial action workplan and a person is harmed thereby;

(4) for any liability to clean up and remove, pursuant to the department's regulations and directions, any hazardous substances that may have been discharged on the property or that may have migrated therefrom; and

(5) for that person's failure to comply in the future with laws and regulations.

g. Nothing in the amendatory provisions to this section adopted pursuant to P.L.1997, c.278 shall be construed to remove any defense to liability that a person may have had pursuant to subsection e. of this section that existed prior to the effective date of P.L.1997, c.278.

h. Nothing in this section shall limit the requirements of any person to comply with P.L.1983, c.330 (C.13:1K-6 et seq.).

3. Section 23 of P.L.1993, c.139 (C.58:10B-1) is amended to read as follows:

C.58:10B-1 Definitions.

23. As used in sections 23 through 43 and section 45 of P.L.1993, c.139 (C.58:10B-1 et seq.), as may be amended and supplemented:

"Area of concern" means any location where contaminants are or were known or suspected to have been discharged, generated, manufactured, refined, transported, stored, handled, treated, or disposed, or where contaminants have or may have migrated;

"Authority" means the New Jersey Economic Development Authority established pursuant to P.L.1974, c.80 (C.34:1B-1 et seq.);

"Contamination" or "contaminant" means any discharged hazardous substance as defined pursuant to section 3 of P.L.1976, c.141 (C.58:10-23.11b), hazardous waste as defined pursuant to section 1 of P.L.1976, c.99 (C.13:1E-38), or pollutant as defined pursuant to section 3 of P.L.1977, c.74 (C.58:10A-3);

"Department" means the Department of Environmental Protection;

"Discharge" means an intentional or unintentional action or omission resulting in the releasing, spilling, leaking, pumping, pouring, emitting, emptying, or dumping of a contaminant onto the land or into the waters of the State;

"Engineering controls" means any mechanism to contain or stabilize contamination or ensure the effectiveness of a remedial action. Engineering controls may include, without limitation, caps, covers, dikes, trenches, leachate collection systems, signs, fences and physical access controls;

"Environmental opportunity zone" has the meaning given that term pursuant to section 3 of P.L.1995, c.413 (C.54:4-3.152);

"Financial assistance" means loans or loan guarantees;

"Institutional controls" means a mechanism used to limit human activities at or near a contaminated site, or to ensure the effectiveness of the remedial action over time, when contaminants remain at a contaminated site in levels or concentrations above the applicable remediation standard that would allow unrestricted use of that property. Institutional controls may include, without limitation, structure, land, and natural resource use restrictions, well restriction areas, and deed notices;

"Limited restricted use remedial action" means any remedial action that requires the continued use of institutional controls but does not require the use of an engineering control;

"No further action letter" means a written determination by the department that based upon an evaluation of the historical use of a particular site, or of an area of concern or areas of concern at that site, as applicable, and any other investigation or action the department deems necessary, there are no discharged contaminants present at the site, at the area of concern or areas of concern, at any other site to which a discharge originating at the site has migrated, or that any discharged contaminants present at the site or that have migrated from the site have been remediated in accordance with applicable remediation regulations;

"Preliminary assessment" means the first phase in the process of identifying areas of concern and determining whether contaminants are or were present at a site or have migrated or are migrating from a site, and shall include the initial search for and evaluation of, existing site specific operational and environmental information, both current and historic, to determine if further investigation concerning the documented, alleged, suspected or latent discharge of any contaminant is required. The evaluation of historic information shall be conducted from 1932 to the present, except that the department may require the search for and evaluation of additional information relating to ownership and use of the site prior to 1932 if such information is available through diligent inquiry of the public records;

"Remedial action" means those actions taken at a site or offsite if a contaminant has migrated or is migrating therefrom, as may be required by the department, including the removal, treatment, containment, transportation, securing, or other engineering or treatment measures, whether to an unrestricted use or otherwise, designed to ensure that any discharged contaminant at the site or that has migrated or is migrating from the site, is remediated in compliance with the applicable health risk or environmental standards;

"Remedial action workplan" means a plan for the remedial action to be undertaken at a site, or at any area to which a discharge originating at a site is migrating or has migrated; a description of the remedial action to be used to remediate a site; a time schedule and cost estimate of the implementation of the remedial action; and any other information the department deems necessary;

"Remedial investigation" means a process to determine the nature and extent of a discharge of a contaminant at a site or a discharge of a contaminant that has migrated or is migrating from the site and the problems presented by a discharge, and may include data collected, site characterization, sampling, monitoring, and the gathering of any other sufficient and relevant information necessary to determine the necessity for remedial action and to support the evaluation of remedial actions if necessary;

"Remediation" or "remediate" means all necessary actions to investigate and clean up or respond to any known, suspected, or threatened discharge of contaminants, including, as necessary, the preliminary assessment, site investigation, remedial investigation, and remedial action, provided, however, that "remediation" or "remediate" shall not include the payment of compensation for damage to, or loss of, natural resources;

"Remediation fund" means the Hazardous Discharge Site Remediation Fund established pursuant to section 26 of P.L.1993, c.139 (C.58:10B-4);

"Remediation funding source" means the methods of financing the remediation of a discharge required to be established by a person performing the remediation pursuant to section 25 of P.L.1993, c.139 (C.58:10B-3);

"Remediation standards" means the combination of numeric standards that establish a level or concentration, and narrative standards to which contaminants must be treated, removed, or otherwise cleaned for soil, groundwater, or surface water, as provided by the department pursuant to section 35 of P.L.1993, c.139 (C.58:10B-12) in order to meet the health risk or environmental standards;

"Restricted use remedial action" means any remedial action that requires the continued use of engineering and institutional controls in order to meet the established health risk or environmental standards;

"Site investigation" means the collection and evaluation of data adequate to determine whether or not discharged contaminants exist at a site or have migrated or are migrating from the site at levels in excess of the applicable remediation standards. A site investigation shall be developed based upon the information collected pursuant to the preliminary assessment;

"Unrestricted use remedial action" means any remedial action that does not require the continued use of engineering or institutional controls in order to meet the established health risk or environmental standards;

"Voluntarily perform a remediation" means performing a remediation without having been ordered or directed to do so by the department or by a court and without being compelled to perform a remediation pursuant to the provisions of P.L.1983, c.330 (C.13:1K-6 et al.).

4. Section 6 of P.L.1997, c.278 (C.58:10B-13.1) is amended to read as follows:

C.58:10B-13.1 No further action letter; covenant not to sue.

6. a. Whenever after the effective date of P.L.1997, c.278 (C.58:10B-1.1 et al.) the Department of Environmental Protection issues a no further action letter pursuant to a remediation, it shall also issue to the person performing the remediation a covenant not to sue with respect to the real property upon which the remediation has been conducted. A covenant not to sue shall be executed by the person performing the remediation and by the department in order to become effective. The covenant not to sue shall be consistent with any conditions

and limitations contained in the no further action letter. The covenant not to sue shall be for any area of concern remediated and may apply to the entire real property if the remediation included a preliminary assessment and, if necessary, a site investigation of the entire real property, and any other necessary remedial actions. The covenant remains effective only for as long as the real property for which the covenant was issued continues to meet the conditions of the no further action letter. Upon a finding by the department that real property or a portion thereof to which a covenant not to sue pertains, no longer meets with the conditions of the no further action letter, the department shall provide notice of that fact to the person responsible for maintaining compliance with the no further action letter. The department may allow the person a reasonable time to come into compliance with the terms of the original no further action letter. If the property does not meet the conditions of the no further action letter and if the department does not allow for a period of time to come into compliance or if the person fails to come into compliance within the time period, the department may invoke the provisions of the covenant not to sue permitting revocation of the covenant not to sue.

Except as provided in subsection e. of this section, a covenant not to sue shall contain the following, as applicable:

(1) a provision releasing the person who undertook the remediation from all civil liability to the State to perform any additional remediation, to pay compensation for damage to, or loss of, natural resources, or for any cleanup and removal costs;

(2) for a remediation that involves the use of engineering or institutional controls:

(a) a provision requiring the person, or any subsequent owner, lessee, or operator during the person's period of ownership, tenancy, or operation, to maintain those controls, conduct periodic monitoring for compliance, and submit to the department, on a biennial basis, a certification that the engineering and institutional controls are being properly maintained and continue to be protective of public health and safety and of the environment. The certification shall state the underlying facts and shall include the results of any tests or procedures performed that support the certification; and

(b) a provision revoking the covenant if the engineering or institutional controls are not being maintained or are no longer in place; and

(3) for a remediation that involves the use of engineering controls but not for any remediation that involves the use of institutional controls only, a provision barring the person or persons whom the covenant not to sue benefits, from making a claim against the New Jersey Spill Compensation Fund and the Sanitary Landfill Facility Contingency Fund for any costs or damages relating to the real property and remediation covered by the covenant not to sue. The covenant not to sue shall not bar a claim by any person against the New Jersey Spill Compensation Fund and the Sanitary Landfill Contingency Fund for any remediation that involves only the use of institutional controls if, after a valid no further action letter has been issued, the department orders additional remediation, except that the covenant shall bar such a claim if the department ordered additional remediation in order to remove the institutional control.

b. Unless a covenant not to sue issued under this section is revoked by the department, the covenant shall remain effective. The covenant not to sue shall apply to all successors in ownership of the property and to all persons who lease the property or who engage in operations on the property.

c. If a covenant not to sue is revoked, liability for any additional remediation shall not be applied retroactively to any person for whom the covenant remained in effect during that person's ownership, tenancy, or operation of the property.

d. A covenant not to sue and the protections it affords shall not apply to any discharge that occurs subsequent to the issuance of the no further action letter which was the basis of the issuance of the covenant, nor shall a covenant not to sue and the protections it affords relieve any person of the obligations to comply in the future with laws and regulations.

e. The covenant not to sue may be issued to any person who obtains a no further action letter as provided in subsection a. of this section. The covenant not to sue shall not provide relief from any liability, either under statutory or common law, to any person who is liable for cleanup and removal costs pursuant to subsection c. of section 8 of P.L.1976, c.141

(C.58:10-23.11g), and who does not have a defense to liability pursuant to subsection d. of that section.

C.58:10B-17.1 Commencement of civil action within three years, limitations, provision; definitions.

5. a. (1) Except where a limitations provision expressly and specifically applies to actions commenced by the State or where a longer limitations period would otherwise apply, and subject to any statutory provisions or common law rules extending limitations periods, any civil action concerning the remediation of a contaminated site or the closure of a sanitary landfill facility commenced by the State pursuant to the State's environmental laws shall be commenced within three years next after the cause of action shall have accrued.

(2) For purposes of determining whether a civil action subject to the limitations periods specified in paragraph (1) of this subsection has been commenced within time, no cause of action shall be deemed to have accrued prior to January 1, 2002 or until the contaminated site is remediated or the sanitary landfill has been properly closed, whichever is later.

b. (1) Except where a limitations provision expressly and specifically applies to actions commenced by the State or where a longer limitations period would otherwise apply, and subject to any statutory provisions or common law rules extending limitations periods, any civil action concerning the payment of compensation for damage to, or loss of, natural resources due to the discharge of a hazardous substance, commenced by the State pursuant to the State's environmental laws, shall be commenced within four years next after the cause of action shall have accrued.

(2) For purposes of determining whether a civil action subject to the limitations periods specified in paragraph (1) of this subsection has been commenced within time, no cause of action shall be deemed to have accrued prior to January 1, 2002 or until the performance of the preliminary assessment, site investigation, and remedial investigation, if necessary, of the contaminated site or the sanitary landfill facility, whichever is later.

c. As used in this section:

"State's environmental laws" means the "Spill Compensation and Control Act," P.L.1976, c.141 (C.58:10-23.11 et seq.), the "Water Pollution Control Act," P.L.1977, c.74 (C.58:10A-1 et seq.), P.L.1986, c.102 (C.58:10A-21 et seq.), the "Brownfield and Contaminated Site Remediation Act," P.L.1997, c.278 (C.58:10B-1.1 et al.), the "Industrial Site Recovery Act," P.L.1983, c.330 (C.13:1K-6 et al.), the "Solid Waste Management Act," P.L.1970, c.39 (C.13:1E-1 et seq.), the "Comprehensive Regulated Medical Waste Management Act," P.L.1989, c.34 (C.13:1E-48.1 et seq.), the "Major Hazardous Waste Facilities Siting Act," P.L.1981, c.279 (C.13:1E-49 et seq.), the "Sanitary Landfill Facility Closure and Contingency Fund Act," P.L.1981, c.306 (C.13:1E-100 et seq.), the "Regional Low-Level Radioactive Waste Disposal Facility Siting Act," P.L.1987, c.333 (C.13:1E-177 et seq.), or any other law or regulation by which the State may compel a person to perform remediation activities on contaminated property; and

"State" means the State, its political subdivisions, any office, department, division, bureau, board, commission or agency of the State or one of its political subdivisions, and any public authority or public agency, including, but not limited to, the New Jersey Transit Corporation and the University of Medicine and Dentistry of New Jersey.

C.58:10-23.11g11 Immunity from liability for certain discharges.

6. Any person who has a defense to liability pursuant to paragraphs (2) and (5) of subsection d. of section 8 of P.L.1976, c.141 (C.58:10-23.11g) shall not be liable for the payment of compensation for damage to, or loss of, natural resources due to the discharge of a hazardous substance.

7. Section 2 of P.L.1991, c.387 (C.2A:14-1.2) is amended to read as follows:

C.2A:14-1.2 Civil actions commenced by the State, 10 years; "State" defined; exceptions.

2. a. Except where a limitations provision expressly and specifically applies to actions

commenced by the State or where a longer limitations period would otherwise apply, and subject to any statutory provisions or common law rules extending limitations periods, any civil action commenced by the State shall be commenced within ten years next after the cause of action shall have accrued.

b. For purposes of determining whether an action subject to the limitations period specified in subsection a. of this section has been commenced within time, no such action shall be deemed to have accrued prior to January 1, 1992.

c. As used in this act, the term "State" means the State, its political subdivisions, any office, department, division, bureau, board, commission or agency of the State or one of its political subdivisions, and any public authority or public agency, including, but not limited to, the New Jersey Transit Corporation and the University of Medicine and Dentistry of New Jersey.

The provisions of this section shall not apply to any civil action commenced by the State concerning the remediation of a contaminated site or the closure of a sanitary landfill facility, or the payment of compensation for damage to, or loss of, natural resources due to the discharge of a hazardous substance, and subject to the limitations period specified in section 5 of P.L.2001, c.154 (C.58:10B-17.1).

8. This act shall take effect immediately.

Approved July 13, 2001.
