

## CHAPTER 201

**AN ACT** concerning the service credit of certain members of the Police and Firemen's Retirement System of New Jersey and the payment of certain costs, amending P.L.1944, c.255 and supplementing P.L.1993, c.247 (C.43:16A-3.8 et seq.).

**BE IT ENACTED** by the Senate and General Assembly of the State of New Jersey:

C.43:16A-3.14 Full credit toward PFRS benefits for transferred PERS service.

1. a. Notwithstanding the provisions of P.L.1993, c.247 (C.43:16A-3.8 et seq.) to the contrary, a member or retiree of the Police and Firemen's Retirement System of New Jersey (PFRS), established pursuant to P.L.1944, c.255 (C.43:16A-1 et seq.), who was eligible to become a member of the PFRS and transferred membership from the Public Employees' Retirement System of New Jersey (PERS), established pursuant to P.L.1954, c.84 (C.43:15A-1 et seq.), to the PFRS pursuant to section 1 of P.L.1993, c.247 (C.43:16A-3.8) shall receive full credit toward benefits under PFRS for the transferred PERS service.

b. The PFRS shall reimburse to any member or retiree who agreed to pay the full cost of the accrued liability for the transferred PERS credit as provided in section 3 of P.L.1993, c.247 (C.43:16A-3.10) the cost of that credit purchase.

2. Section 15 of P.L.1944, c.255 (C.43:16A-15) is amended to read as follows:

C.43:16A-15 Contributions, expenses of administration.

15. (1) The contributions required for the support of the retirement system shall be made by members and their employers.

(2) The uniform percentage contribution rate for members shall be 8.5% of compensation.

(3) (Deleted by amendment, P.L.1989, c.204).

(4) Upon the basis of the tables recommended by the actuary which the board adopts and regular interest, the actuary shall compute annually, beginning as of June 30, 1991, the amount of contribution which shall be the normal cost as computed under the projected unit credit method attributable to service rendered under the retirement system for the year beginning on July 1 immediately succeeding the date of the computation. This shall be known as the "normal contribution."

(5) (Deleted by amendment, P.L.1989, c.204).

(6) (Deleted by amendment, P.L.1994, c.62.)

(7) Each employer shall cause to be deducted from the salary of each member the percentage of earnable compensation prescribed in subsection (2) of this section. To facilitate the making of deductions, the retirement system may modify the amount of deduction required of any member by an amount not to exceed 1/10 of 1% of the compensation upon which the deduction is based.

(8) The deductions provided for herein shall be made notwithstanding that the minimum salary provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein, and payment of salary or compensation less said deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the service rendered by such person during the period covered by such payment, except as to the benefits provided under this act. The chief fiscal officer of each employer shall certify to the retirement system in such manner as the retirement system may prescribe, the amounts deducted; and when deducted shall be paid into said annuity savings fund, and shall be credited to the individual account of the member from whose salary said deduction was made.

(9) With respect to employers other than the State, upon the basis of the tables recommended by the actuary which the board adopts and regular interest, the actuary shall compute the amount of the accrued liability as of June 30, 1991 under the projected unit credit method, which is not already covered by the assets of the retirement system, valued in accordance with the asset valuation method established in this section. Using the total amount of this unfunded accrued liability, the actuary shall compute the initial amount of contribution which, if the contribution is increased at a specific rate and paid annually for a specific period of time, will amortize this liability. The State Treasurer shall determine, upon the advice of the

Director of the Division of Pensions and Benefits, the board of trustees and the actuary, the rate of increase for the contribution and the time period for full funding of this liability, which shall not exceed 40 years on initial application of this section as amended by this act, P.L.1994, c.62. This shall be known as the "accrued liability contribution." Any increase or decrease in the unfunded accrued liability as a result of actuarial losses or gains for the 10 valuation years following valuation year 1991 shall serve to increase or decrease, respectively, the unfunded accrued liability contribution. Thereafter, any increase or decrease in the unfunded accrued liability as a result of actuarial losses or gains for subsequent valuation years shall serve to increase or decrease, respectively, the amortization period for the unfunded accrued liability, unless an increase in the amortization period will cause it to exceed 30 years. If an increase in the amortization period as a result of actuarial losses for a valuation year would exceed 30 years, the accrued liability contribution shall be computed for the valuation year in the same manner provided for the computation of the initial accrued liability contribution under this section.

With respect to the State, upon the basis of the tables recommended by the actuary which the board adopts and regular interest, the actuary shall annually determine if there is an amount of the accrued liability, computed under the projected unit credit method, which is not already covered by the assets of the retirement system, valued in accordance with the asset valuation method established in this section. This shall be known as the "unfunded accrued liability." If there was no unfunded accrued liability for the valuation period immediately preceding the current valuation period, the actuary, using the total amount of this unfunded accrued liability, shall compute the initial amount of contribution which, if the contribution is increased at a specific rate and paid annually for a specific period of time, will amortize this liability. The State Treasurer shall determine, upon the advice of the Director of the Division of Pensions and Benefits, the board of trustees and the actuary, the rate of increase for the contribution and the time period for full funding of this liability, which shall not exceed 30 years. This shall be known as the "accrued liability contribution." Thereafter, any increase or decrease in the unfunded accrued liability as a result of actuarial losses or gains for subsequent valuation years shall serve to increase or decrease, respectively, the amortization period for the unfunded accrued liability, unless an increase in the amortization period will cause it to exceed 30 years. If an increase in the amortization period as a result of actuarial losses for a valuation year would exceed 30 years, the accrued liability contribution shall be computed for the valuation year in the same manner provided for the computation of the initial accrued liability contribution under this section. The State may pay all or any portion of its unfunded accrued liability under the retirement system from any source of funds legally available for the purpose, including, without limitation, the proceeds of bonds authorized by law for this purpose.

The value of the assets to be used in the computation of the contributions provided for under this section for valuation periods shall be the value of the assets for the preceding valuation period increased by the regular interest rate, plus the net cash flow for the valuation period (the difference between the benefits and expenses paid by the system and the contributions to the system) increased by one half of the regular interest rate, plus 20% of the difference between this expected value and the full market value of the assets as of the end of the valuation period. This shall be known as the "valuation assets." Notwithstanding the first sentence of this paragraph, the valuation assets for the valuation period ending June 30, 1995 shall be the full market value of the assets as of that date and, with respect to the valuation assets allocated to the State, shall include the proceeds from the bonds issued pursuant to the "Pension Bond Financing Act of 1997," P.L.1997, c.114 (C.34:1B-7.45 et seq.), paid to the system by the New Jersey Economic Development Authority to fund the unfunded accrued liability of the system. Notwithstanding the first sentence of this paragraph, the percentage of the difference between the expected value and the full market value of the assets to be added to the expected value of the assets for the valuation period ending June 30, 1998 for the State shall be 100% and for other employers shall be 57% plus such additional percentage as is equivalent to \$150,000,000. Notwithstanding the first sentence of this paragraph, the amount of the difference between the expected value and the full market value of the assets to be added to the expected value of the assets for the valuation period ending June 30, 1999 shall include an additional amount of the market value of the assets sufficient to fund (1) the unfunded accrued liability for the supplementary "special retirement"

allowances provided under subsection b. of section 16 of P.L.1964, c.241 (C.43:16A-11.1) and (2) the unfunded accrued liability for the full credit toward benefits under the retirement system for service credited in the Public Employees' Retirement System and transferred pursuant to section 1 of P.L.1993, c.247 (C.43:16A-3.8) and the reimbursement of the cost of any credit purchase pursuant to section 3 of P.L.1993, c.247 (C.43:16A-3.10) provided under section 1 of P.L.2001, c.201 (C.43:16A-3.14).

"Excess valuation assets" means, with respect to the valuation assets allocated to the State, the valuation assets allocated to the State for a valuation period less the actuarial accrued liability of the State for the valuation period, and beginning with the valuation period ending June 30, 1998, less the present value of the expected additional normal cost contributions attributable to the provisions of P.L.1999, c.428 (C.43:16A-15.8 et al.) payable on behalf of the active members employed by the State as of the valuation period over the expected working lives of the active members in accordance with the tables of actuarial assumptions applicable to the valuation period, if the sum is greater than zero. "Excess valuation assets" means, with respect to the valuation assets allocated to other employers, the valuation assets allocated to the other employers for a valuation period less the actuarial accrued liability of the other employers for the valuation period, excluding the unfunded accrued liability for early retirement incentive benefits pursuant to P.L.1993, c.99 for the other employers, and beginning with the valuation period ending June 30, 1998, less the present value of the expected additional normal cost contributions attributable to the provisions of P.L.1999, c.428 (C.43:16A-15.8 et al.) payable on behalf of the active members employed by other employers as of the valuation period over the expected working lives of the active members in accordance with the tables of actuarial assumptions applicable to the valuation period, if the sum is greater than zero.

If there are excess valuation assets allocated to the State or to the other employers for the valuation period ending June 30, 1995, the normal contributions payable by the State or by the other employers for the valuation periods ending June 30, 1995, and June 30, 1996 which have not yet been paid to the retirement system shall be reduced to the extent possible by the excess valuation assets allocated to the State or to the other employers, respectively, provided that with respect to the excess valuation assets allocated to the State, the General Fund balances that would have been paid to the retirement system except for this provision shall first be allocated as State aid to public schools to the extent that additional sums are required to comply with the May 14, 1997 decision of the New Jersey Supreme Court in *Abbott v. Burke*.

If there are excess valuation assets allocated to the other employers for the valuation period ending June 30, 1998, the accrued liability contributions payable by the other employers for the valuation period ending June 30, 1997 shall be reduced to the extent possible by the excess valuation assets allocated to the other employers.

If there are excess valuation assets allocated to the State or to the other employers for a valuation period ending after June 30, 1998, the State Treasurer may reduce the normal contribution payable by the State or by other employers for the next valuation period as follows:

- (1) for valuation periods ending June 30, 1996 through June 30, 2000, to the extent possible by up to 100% of the excess valuation assets allocated to the State or to the other employers, respectively;
- (2) for the valuation period ending June 30, 2001, to the extent possible by up to 84% of the excess valuation assets allocated to the State or to the other employers, respectively;
- (3) for the valuation period ending June 30, 2002, to the extent possible by up to 68% of the excess valuation assets allocated to the State or to the other employers, respectively; and
- (4) for valuation periods ending on or after June 30, 2003, to the extent possible by up to 50% of the excess valuation assets allocated to the State or to the other employers, respectively.

Notwithstanding the discretion provided to the State Treasurer in the previous paragraph to reduce the amount of the normal contribution payable by employers other than the State, the State Treasurer shall reduce the amount of the normal contribution payable by employers other than the State by \$150,000,000 in the aggregate for the valuation period ending June 30, 1998, and then the State Treasurer may reduce further pursuant to the provisions of the previous paragraph the normal contribution payable by such employers for that valuation period.

The normal and accrued liability contributions shall be certified annually by the retirement system and shall be included in the budget of the employer and levied and collected in the same manner as any other taxes are levied and collected for the payment of the salaries of members.

(10) The treasurer or corresponding officer of the employer shall pay to the State Treasurer no later than April 1 of the State's fiscal year in which payment is due the amount so certified as payable by the employer, and shall pay monthly to the State Treasurer the amount of the deductions from the salary of the members in the employ of the employer, and the State Treasurer shall credit such amount to the appropriate fund or funds, of the retirement system.

If payment of the full amount of the employer's obligation is not made within 30 days of the due date established by this act, interest at the rate of 10% per annum shall commence to run against the unpaid balance thereof on the first day after such 30th day.

If payment in full, representing the monthly transmittal and report of salary deductions, is not made within 15 days of the due date established by the retirement system, interest at the rate of 10% per annum shall commence to run against the total transmittal of salary deductions for the period on the first day after such 15th day.

(11) The expenses of administration of the retirement system shall be paid by the State of New Jersey. Each employer shall reimburse the State for a proportionate share of the amount paid by the State for administrative expense. This proportion shall be computed as the number of members under the jurisdiction of such employer bears to the total number of members in the system. The pro rata share of the cost of administrative expense shall be included with the certification by the retirement system of the employer's contribution to the system.

(12) Notwithstanding anything to the contrary, the retirement system shall not be liable for the payment of any pension or other benefits on account of the employees or beneficiaries of any employer participating in the retirement system, for which reserves have not been previously created from funds, contributed by such employer or its employees for such benefits.

(13) (Deleted by amendment, P.L.1992, c.125.)

(14) Commencing with valuation year 1991, with payment to be made in Fiscal Year 1994, the Legislature shall annually appropriate and the State Treasurer shall pay into the pension accumulation fund of the retirement system an amount equal to 1.1% of the compensation of the members of the system for the valuation year to fund the benefits provided by section 16 of P.L.1964, c.241 (C.43:16A-11.1), as amended by P.L.1979, c.109.

(15) If the valuation assets are insufficient to fund the normal and accrued liability costs attributable to P.L.1999, c.428 (C.43:16A-15.8 et al.) as provided hereinabove, the normal and unfunded accrued liability contributions required to fund these costs for the State and other employers shall be paid by the State.

(16) The savings realized as a result of the amendments to this section by P.L.2001, c.44 in the payment of normal contributions computed by the actuary for the valuation periods ending June 30, 1998 for employers other than the State shall be used solely and exclusively by a county or municipality for the purpose of reducing the amount that is required to be raised by the local property tax levy by the county for county purposes or by the municipality for municipal purposes, as appropriate. The Director of the Division of Local Government Services in the Department of Community Affairs shall certify for each year that each county or municipality has complied with the requirements set forth herein. If the director finds that a county or municipality has not used the savings solely and exclusively for the purpose of reducing the amount that is required to be raised by the local property tax levy by the county for county purposes or by the municipality for municipal purposes, as appropriate, the director shall direct the county or municipal governing body, as appropriate, to make corrections to its budget.

3. This act shall take effect 90 days following enactment

Approved August 8, 2001.
