

CHAPTER 54

AN ACT concerning certain employees in substance abuse programs in public schools and amending P.L. 1987, c.387.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. Section 5 of P.L.1987, c.387 (C.18A:40A-12) is amended to read as follows:

C.18A:40A-12 Reporting of pupils under influence; examination; report; return home; evaluation of possible need for treatment; referral for treatment.

5. a. Whenever it shall appear to any teaching staff member, school nurse or other educational personnel of any public school in this State that a pupil may be under the influence of substances as defined pursuant to section 2 of this act, other than anabolic steroids, that teaching staff member, school nurse or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an immediate examination of the pupil by a doctor selected by the parent or guardian, or if that doctor is not immediately available, by the medical inspector, if he is available. If a doctor or medical inspector is not immediately available, the pupil shall be taken to the emergency room of the nearest hospital for examination accompanied by a member of the school staff designated by the principal and a parent or guardian of the pupil if available. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil is under such influence. A written report of that examination shall be furnished within 24 hours by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil was under the influence of a substance, the pupil shall be returned to his or her home as soon as possible and shall not resume attendance at school until the pupil submits to the principal a written report certifying that he or she is physically and mentally able to return thereto, which report shall be prepared by a personal physician, the medical inspector or the physician who examined the pupil pursuant to the provisions of this act.

In addition, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with such experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health and Senior Services.

b. Whenever any teaching staff member, school nurse or other educational personnel of any public school in this State shall have reason to believe that a pupil has used or may be using anabolic steroids, that teaching staff member, school nurse or other educational personnel shall report the matter as soon as possible to the school nurse or medical inspector, as the case may be, or to a student assistance coordinator, and to the principal or, in his absence, to his designee. The principal or his designee, shall immediately notify the parent

or guardian and the superintendent of schools, if there be one, or the administrative principal and shall arrange for an examination of the pupil by a doctor selected by the parent or guardian or by the medical inspector. The pupil shall be examined as soon as possible for the purpose of diagnosing whether or not the pupil has been using anabolic steroids. A written report of that examination shall be furnished by the examining physician to the parent or guardian of the pupil and to the superintendent of schools or administrative principal. If it is determined that the pupil has been using anabolic steroids, the pupil shall be interviewed by a student assistance coordinator or another appropriately trained teaching staff member for the purpose of determining the extent of the pupil's involvement with these substances and possible need for treatment. In order to make this determination the coordinator or other teaching staff member may conduct a reasonable investigation which may include interviews with the pupil's teachers and parents. The coordinator or other teaching staff member may also consult with such experts in the field of substance abuse as may be necessary and appropriate. If it is determined that the pupil's involvement with and use of these substances represents a danger to the pupil's health and well-being, the coordinator or other teaching staff member shall refer the pupil to an appropriate treatment program which has been approved by the Commissioner of Health and Senior Services.

2. Section 6 of P.L.1987, c.387 (C.18A:40A-13) is amended to read as follows:

C.18A:40A-13 Immunity for personnel.

6. No action of any kind in any court of competent jurisdiction shall lie against any teaching staff member, including a student assistance coordinator, any school nurse or other educational personnel, medical inspector, examining physician or any other officer, agent or any employee of the board of education or personnel of the emergency room of a hospital because of any action taken by virtue of the provisions of this act, provided the skill and care given is that ordinarily required and exercised by other such teaching staff members, nurses, educational personnel, medical inspectors, physicians or other officers, agents, or any employees of the board of education or emergency room personnel.

3. Section 7 of P.L. 1987, c.387 (C.18A:40A-14) is amended to read as follows:

C.18A:40A-14 Civil immunity for reporting.

7. Any teacher, guidance counselor, school psychologist, school nurse, student assistance coordinator or other educational or noneducational personnel, employed by or in any of the public or private schools of this State, who in good faith reports a pupil to the principal or his designee or to the medical inspector or school physician or school nurse in an attempt to help such pupil cure his abuse of substances as defined in section 2 of this act, shall not be liable in civil damages as a result of making any such report.

Nothing in this section is intended to preclude the protections provided in section 2 of P.L.1971, c.414 (C.2A:62A-4) or otherwise provided by law.

4. Section 11 of P.L.1987, c.387 (C.18A:40A-18) is amended to read as follows:

C.18A:40A-18 Employment of student assistance coordinators in certain school districts.

11. The Commissioner of Education, in consultation with the Commissioner of Health and Senior Services, shall develop and administer a program which provides for the employment of student assistance coordinators in certain school districts.

a. Within 90 days of the effective date of this act, the Commissioner of Education shall forward to each local school board a request for a proposal for the employment of a student assistance coordinator. A board which wants to participate in the program shall submit a proposal to the commissioner which outlines the district's plan to provide substance abuse prevention, intervention and treatment referral services to students through the employment of a student assistance coordinator. Nothing shall preclude a district which employs a student assistance coordinator at the time of the effective date of this act from participating in this program. The commissioner shall select school districts to participate in the program through a competitive grant process. The participating districts shall include urban, suburban and rural districts from the north, central and southern geographic regions of the State with at least one school district per county. In addition to all other State aid to which the local district is entitled under the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.) and other pertinent statutes, each board of education participating in the program shall receive from the State, for a three-year period, the amount necessary to pay the salary of its student assistance coordinator.

b. The position of student assistance coordinator shall be separate and distinct from any other employment position in the district, including, but not limited to district guidance counselors, school social workers and school psychologists. The State Board of Education shall approve the education and experience criteria necessary for employment as a student assistance coordinator. The criteria shall include a requirement for certification by the State Board of Examiners. In addition to the criteria established by the State board, the Department of Education and the Department of Health and Senior Services shall jointly conduct orientation and training programs for student assistance coordinators, and shall also provide for continuing education programs for coordinators.

c. It shall be the responsibility of student assistance coordinators to assist local school districts in the effective implementation of this act. Coordinators shall assist with the in service training of school district staff concerning substance abuse issues and the district program to combat substance abuse; serve as an information resource for substance abuse curriculum development and instruction; assist the district in revising and implementing substance abuse policies and procedures; develop and administer intervention services in the district; provide counseling services to pupils regarding substance abuse problems; and, where necessary and appropriate, cooperate with juvenile justice officials in the rendering of substance abuse treatment services.

d. The Commissioner of Education, in consultation with the Commissioner of Health and Senior Services, shall implement a plan to collect data on the effectiveness of the program in treating problems associated with substance abuse and in reducing the incidence of substance abuse in local school districts. Six months prior to the expiration of the program authorized pursuant to this section, the Commissioner of Education shall submit to the Governor and the Legislature an evaluation of the program and a recommendation on the advisability of its continuation or expansion to all school districts in the State.

5. This act shall take effect immediately.

Approved May 6, 2009.
