c. The Department of Environmental Protection is authorized to adjust the allowable Department of Environmental Protection loan amount for projects authorized in this section to between 25% and 75% of the total allowable loan amount and loan amounts to less than 25% to the extent the priority ranking and an insufficiency of funding prevents the department from making the loan.

4. Any financing loan made by the Department of Environmental Protection pursuant to this act shall be subject to the following requirements:

a. The Commissioner Environmental Protection has certified that the project is in compliance with the provisions of P.L.1977, c.224, P.L.1985, c.329, P.L.1992, c.88, P.L.1997, c.223, P.L.1997, c.225 or P.L.2003, c.162, and any rules and regulations adopted pursuant thereto;

b. The estimated Department of Environmental Protection allowable loan amount shall not exceed 75% of the total allowable loan amount of the environmental infrastructure facility for projects listed in subsections a. and b. of section 2 of this act, and in subsections a. and b. of section 3 of this act, provided that:

(1) for clean water loans to municipalities that do not satisfy the New Jersey Environmental Infrastructure Trust credit policy but are subject to State financial supervision and oversight pursuant to the "Local Government Supervision Act (1947)," P.L.1947, c.151 (C.52:27BB-1 et seq.), the Department of Environmental Protection allowable loan amount shall be up to 100% of the total allowable loan amount not to exceed a total of \$10,000,000 for all such loans;

(2) for clean water and drinking water loans to municipalities receiving funding under the United States Department of Housing and Urban Development Community Development Block Grant – Disaster Recovery Program (CDBG-DR) the Department of Environmental Protection allowable loan amount shall be up to 100% of the total allowable loan amount; and

(3) for loans to drinking water systems serving 500 or fewer residents the Department of Environmental Protection allowable loan amount shall be 100% of the total allowable loan amount not to exceed a total of \$500,000 for all such loans. The loan amount for supplemental loans shall not exceed that percentage of the allowable project cost of the project's initial program loan; and

(4) for loans to communities in a combined sewer overflow sewershed sponsoring construction projects that reduce or eliminate excessive infiltration, inflow, or extraneous flows, the Department of Environmental Protection allowable loan amount shall be up to 100% of the total allowable loan amount;

c. The loan shall be repaid within a period not to exceed 30 years of the making of the loan; and

d. The loan shall be subject to any other terms and conditions as may be established by the commissioner and approved by the State Treasurer, which may include, notwithstanding any other provision of law to the contrary, subordination of a loan authorized in this act to loans made by the New Jersey Environmental Infrastructure Trust pursuant to P.L.2016, c.31, or to administrative fees payable to the trust pursuant to subsection o. of section 5 of P.L.1985, c.334 (C.58:11B-5).

5. a. Any Sandy financing loan made by the Department of Environmental Protection pursuant to this act shall be subject to the following requirements:

(1) The commissioner has certified that the project is in compliance with the provisions of Title X, Chapter 7 of the Federal "Disaster Relief Appropriations Act of 2013" (Pub.L.113-2), and any amendatory and supplementary acts thereto; and

(2) The commissioner has certified that the project is in compliance with the provisions of P.L.1977, c.224, P.L.1985, c.329, P.L.1992, c.88, P.L.1997, c.223, P.L.1997, c.225 or P.L.2003, c.162, and any rules and regulations adopted pursuant thereto.

b. The total amount of Sandy financing loans received by any project sponsor for drinking water projects listed in subsection b. of section 3 of this act shall not exceed \$15 million of which not more than \$4.5 million of the principal may be forgiven. In the event a project sponsor's individual loan needs exceed \$15 million, the borrower may select which of its projects it will seek funding pursuant to this section, and the borrower may seek a loan for excess costs in a base financing loan. In the event that additional Sandy funding becomes available because project sponsors do not close on loans or the project sponsors loan requests are less than originally applied for, the loan not to exceed amount may be increased to the extent needed to assure full utilization of Sandy funding for drinking water projects, provided:

(1) the loan shall be repaid within a period not to exceed 30 years of the making of the loan;

(2) the loan shall be conditioned upon approval of a loan from the New Jersey Environmental Infrastructure Trust pursuant to P.L.2016, c.31 prior to June 30, 2017; and

(3) the loan shall be subject to any other terms and conditions as may be established by the commissioner and approved by the State Treasurer, which may include, notwithstanding any other provision of law to the contrary, subordination of a loan authorized in this act to loans made by the trust pursuant to P.L.2016, c.31 prior to June 30, 2017, or to administrative fees payable to the trust pursuant to subsection o. of section 5 of P.L.1985, c.334 (C.58:11B-5).

6. The priority lists and authorization for the making of loans pursuant to sections 2 and 3 of this act shall expire on July 1, 2017, and any project sponsor which has not executed and delivered a loan agreement with the department for a loan authorized in this act shall no longer be entitled to that loan.

7. The Commissioner of Environmental Protection is authorized to reduce or increase the individual amount of loan funds made available to or on behalf of project sponsors pursuant to sections 2 and 3 of this act based upon final or low bid building costs defined in and determined in accordance with rules and regulations adopted by the commissioner pursuant to section 4 of P.L.1985, c.329, section 2 of P.L.1999, c.362 (C.58:12A-12.2), or section 5 of P.L.1981, c.261, provided that the total loan amount does not exceed the estimated total allowable loan amount. The commissioner is authorized to reduce or increase the individual amount of loan funds made available to or on behalf of project sponsors pursuant to sections 2 and 3 of this act in an amount not to exceed 10 percent of the total allowable loan amount based upon additional project costs to comply with the Department of Environmental Protection's guidance for asset management, emergency response, flood protection, and auxiliary power.
