10. a. On or before the effective date of P.L.2017, c.26 (C.39:5H-1 et seq.), a transportation network company driver, transportation network company, or any combination of the two shall maintain primary automobile insurance that recognizes that the driver is a transportation network company driver, or otherwise uses a personal vehicle to provide prearranged rides, and covers the driver: (1) while the driver is logged on to the transportation network company's digital network but is not providing a prearranged ride; or (2) while the driver is providing a prearranged ride.

b. Whenever a transportation network company driver is logged on to the transportation network company's digital network and is available to receive a prearranged ride request, but is not providing a prearranged ride, the transportation network company driver, transportation network company, or any combination of the two shall maintain the following insurance coverage:

If the insurance coverage maintained by a transportation network company driver pursuant to subsections b. and c. of this section has lapsed or does not provide the required coverage, insurance maintained by the transportation network company shall provide the coverage required by subsections b. and c. of this section beginning with the first dollar of a claim and the transportation network company shall have the duty to defend the claim.

e. Coverage under an automobile insurance policy maintained by the transportation network company shall not be dependent upon a private passenger automobile insurer first denying a claim nor shall a private passenger automobile insurance policy be required to first deny a claim.

f. Insurance coverage required by this section may be obtained from an insurance company duly licensed to transact business under the insurance laws of this State or by an eligible surplus lines insurer under section 11 of P.L.1960, c.32 (C.17:22-6.45).

g. The coverage required pursuant to subsections b. and c. of this section shall be deemed to meet the financial responsibility requirements of the “Motor Vehicle Security-Responsibility Law,” P.L.1952, c.173 (C.39:6-23 et seq.), P.L.1972, c.197 (C.39:6B-1 et seq.), and P.L.1972, c.70 (C.39:6A-1 et seq.).

h. A transportation network company driver shall carry proof of insurance required pursuant to subsections b. and c. of this section at all times while using a personal vehicle in connection with a transportation network company’s digital network. In the event of an accident, a transportation network company driver shall, upon request, provide insurance coverage information to the directly interested parties, automobile insurers, and investigating law enforcement officers. The insurance coverage information may be displayed or provided in either paper or electronic form as provided in R.S.39:3-29. A transportation network company driver shall, upon request, disclose to the directly interested parties, automobile insurers, and investigating law enforcement officers whether the driver was logged on to a digital network as a driver or whether the driver was providing a prearranged ride at the time of the accident.

i. If a transportation network company’s insurer makes a payment for a claim for damage to a motor vehicle in which a lienholder holds a security interest, then the transportation network company shall cause its insurer to issue the payment directly to the business repairing the motor vehicle or jointly to the owner of the motor vehicle and the primary lienholder on the covered motor vehicle.

j. The limitation on lawsuit option set forth in subsection a. of section 8 of P.L.1972, c.70 (C.39:6A-8) shall not be assertable by a transportation network company or a transportation network company driver in any action for damages arising from a prearranged ride, or be asserted against any party not receiving personal injury protection benefits in any action for damages arising from a prearranged ride.

#### C.39:5H-11 Disclosures to driver relative to automobile insurance.

11. A transportation network company shall not permit a transportation network company driver to accept a request for a prearranged ride on the transportation network company’s digital network until the transportation network company discloses in writing to the driver:

a. the insurance coverage, including the types and limits of coverage, that the transportation network company provides while the driver uses a personal vehicle in connection with a transportation network company’s digital network; and

b. that the driver’s own private passenger automobile insurance policy, depending on the driver’s private passenger automobile insurance policy, may or may not provide any coverage while the driver is logged on to the transportation network company’s digital network as a driver and is available to receive requests for prearranged rides or is providing a prearranged ride.

#### C.39:5H-12 Insurance company, option to exclude coverage under certain circumstances.

12. a. Notwithstanding the “Motor Vehicle Security-Responsibility Law,” P.L.1952, c.173 (C.39:6-23 et seq.) and P.L.1972, c.197 (C.39:6B-1 et seq.), an insurance company duly licensed to transact business under the insurance laws of this State may exclude any and all coverage afforded under a private passenger automobile insurance policy issued to an owner or operator of a personal vehicle for any loss or injury that occurs while the personal vehicle is being used by a transportation network company driver and the driver is logged on to a transportation network company’s digital network or is providing a prearranged ride. This right to exclude all coverage may apply to any coverage included in a private passenger automobile insurance policy including, but not limited to:

- (1) liability coverage for bodily injury and property damage;
- (2) personal injury protection coverage;
- (3) uninsured and underinsured motorist coverage;
- (4) medical payments coverage;
- (5) comprehensive physical damage coverage; and
- (6) collision physical damage coverage.

Nothing in this section shall imply or require that a private passenger automobile insurance policy provide coverage while the driver is logged on to a transportation network company's digital network, is providing a prearranged ride, or is otherwise using a vehicle to transport riders for compensation.

Nothing in this section shall be construed to require an insurer to use any particular policy language or reference to this section in order to exclude any and all coverage for any loss or injury that occurs while a driver is logged on to a transportation network company's digital network or while a driver is providing a prearranged ride.

Nothing in this section shall be deemed to preclude an insurer from providing primary or excess coverage by contract or endorsement for the transportation network company driver's personal vehicle while the transportation network company driver is logged on to a digital network or while the driver is providing a prearranged ride.

b. An insurance company duly licensed to transact business under the insurance laws of this State that excludes coverage pursuant to subsection a. of this section shall have no duty to defend or indemnify any claim expressly excluded thereunder. Nothing in this section shall be deemed to invalidate or limit an exclusion contained in a policy, including any policy in use or approved for use in the State prior to enactment of P.L.2017, c.26 (C.39:5H-1 et seq.), that excludes coverage for vehicles used to carry persons or property for a charge or available for hire by the public. An automobile insurance company that defends or indemnifies a claim against a driver that is excluded under the terms of its policy shall have a right of contribution against other insurers that provide automobile liability insurance to the same driver in satisfaction of the coverage required pursuant to subsections b. and c. of section 10 of P.L.2017, c.26 (C.39:5H-10) at the time of loss.

c. In a claims coverage investigation, transportation network companies shall immediately provide upon request by directly involved parties or any insurer of the transportation network company driver, if applicable, the precise times that a transportation network company driver logged on and off of the transportation network company's digital network in the 12-hour periods immediately preceding and immediately following the accident. Any insurer providing coverage under subsections b. and c. of section 10 of P.L.2017, c.26 (C.39:5H-10) shall disclose, upon request by any other insurer involved in the particular claim, the applicable coverage, exclusions, and limits provided under any automobile insurance maintained under section 10 of P.L.2017, c.26 (C.39:5H-10).

#### C.39:5H-13 Maintenance of system relative to communication.

13. a. A transportation network company shall maintain a system that permits:

- (1) a transportation network company driver to opt out of any communication with the transportation network company at the driver's discretion;
- (2) a driver to establish, at the sole discretion of the driver, an independent business while engaging with the transportation network company's digital network; and
- (3) a driver, at the sole discretion of the driver, to operate in any municipality in the State without providing prior notice to the transportation network company.

b. A transportation network company shall not restrict a driver's ability to utilize another transportation network company's digital network.

C.39:5H-14 Zero tolerance policy on use of controlled dangerous substances, alcohol.

14. a. A transportation network company shall implement a zero tolerance policy on the use of controlled dangerous substances and alcohol that may impair a transportation network company driver while the driver is providing a prearranged ride or while the driver is logged on to the transportation network company's digital network as a driver but is not providing a prearranged ride.

b. The transportation network company shall provide on its website, digital network, or electronic receipt, notice of the zero tolerance policy and procedures for a transportation network company rider to report a complaint about a driver of a prearranged ride suspected of driving under the influence of a controlled dangerous substance or alcohol.

c. Upon receiving a complaint from a rider alleging that a driver violated the zero tolerance policy, the transportation network company shall conduct an investigation into the reported incident and, if the results of the investigation corroborate the rider's complaint, revoke the driver's access to the transportation network company's digital network within 72 hours from the time when results of the investigation corroborate the rider's complaint.

d. The transportation network company shall maintain records relevant to the enforcement of the zero tolerance policy required under this section for a period of at least two years from the date that the transportation network company receives a rider's complaint.

C.39:5H-15 Adoption of policy of non-discrimination.

15. a. The transportation network company shall adopt a policy of non-discrimination on the basis of destination, race, color, national origin, religious belief or affiliation, sex, disability, age, sexual orientation, or gender identity with respect to transportation network company riders and potential riders. The transportation network company shall notify a transportation network company driver of the non-discrimination policy.

b. A transportation network company shall make its non-discrimination policy available on its website or digital network.

c. A transportation network company driver shall comply with all applicable laws regarding non-discrimination against riders or potential riders on the basis of destination, race, color, national origin, religious belief or affiliation, sex, disability, age, sexual orientation, or gender identity and shall comply with all applicable laws relating to accommodation of service animals.

d. A transportation network company shall provide a transportation network company driver with information on accessibility compliance for persons with disabilities, including information about accommodating a rider with a disability.

e. A transportation network company shall not impose any additional fee for accommodation of a person with a physical disability because of the person's disability.

f. If a transportation network company does not provide access to wheelchair accessible personal vehicles, the transportation network company shall provide on its website or digital network the contact information of providers of wheelchair accessible vehicle transportation services available in New Jersey, if those services are available in the State.

C.39:5H-16 Submission of application by driver.

16. A transportation network company shall require an applicant, as defined in section 2 of P.L.2017, c.26 (C.39:5H-2), to submit a transportation network company driver application to the transportation network company. The application shall include the applicant's address, age, and social security number, a copy of the applicant's driver's

license, motor vehicle registration, and automobile liability insurance, and any other information required by the transportation network company.
